Whether you’re considering what to study or how to get involved in student life, an unparalleled array of choices awaits you. Over a long and proud history, we’ve pushed the limits of knowledge and innovation. What began in 1827 as a small college has evolved into a globally recognized research and teaching powerhouse, consistently ranking among the world’s top universities. The University of Toronto has educated hundreds of thousands of outstanding individuals who have made profound impacts in every aspect of life.

We’ve also created a very special experience for students embarking on their studies. Our First Year Foundations: The One Programs for arts, science and business students offer dynamic, for-credit learning experiences in small-group environments that build community and foster critical skills and creativity. First-year seminar courses, with no more than 24 students each, allow you to get deeply engaged with your studies and your peers. Learning communities bring together students who have similar groups of courses with a peer mentor. And there are many support services dedicated to your academic success. Possibilities at U of T are also limitless when it comes to research opportunities, professional experience, co-op and international learning.

Each of our three campuses offers a unique set of experiences and programs. Whether you go to U of T Scarborough, U of T Mississauga or the downtown St. George campus, get ready to change your future and the world. You’ll be a student at a university with global prestige – a great place to learn how to ask challenging questions, to think fearlessly and to go beyond the boundaries of conventional thought. In a world with more complexities and fewer borders, we need original thinkers to lead the next generation. Your University of Toronto degree will give you the skills you need to thrive.

■ U of T is located in the heart of the Greater Toronto Area, known for its extraordinary variety of things to see and do and its multicultural diversity.
■ The city continues to draw the best and the brightest, who come seeking world-class business, culture and education in one of the safest cities in North America.
■ Whether it’s inside or outside the classroom, U of T offers you a dynamic student life with more than a thousand organizations and boundless choices to explore – athletic teams, arts and culture, academic associations and community involvement.
■ It’s no surprise Newsweek named us one of the top three universities in the world outside the United States.
■ The University of Toronto is committed to providing a safe space for all its members.
■ Give us your enthusiasm, your dedication and four years of your time, and we’ll give you the foundation you need to make your mark on the world.

At U of T, exceptional students become extraordinary people by seeking to develop their minds, bodies and spirits. Choose from more than 1,000 student organizations, athletic teams and academic associations—or create your own. Bring us your interests. We’ll make them your passions.

**Boundless Opportunities for Learning Inside and Outside the Classroom**

The more energy you invest in your U of T experience, the greater the rewards you’ll reap. That’s why we give you thousands of things to be passionate about. U of T’s student clubs reflect the pluralism of our community and the full spectrum of passions shared among our students, covering such diverse interests as Argentine Tango and badminton (plus more than 1,000 other groups). U of T’s size and reputation also enable the University to bring hundreds of prominent speakers to campus. Over the years, Martin Luther King, Jr., Noam Chomsky, Jane Goodall, the Dalai Lama, Michael Ignatieff and Stephen Lewis, to name just a few, have captivated students.

Just like its home cities, the University of Toronto knows how to celebrate. Annual traditions include: Ecofest, which celebrates and promotes environmental activism at U of T through movie screenings, a clubs fair, bike workshops and lectures; the U of T Festival of Dance, Canada’s largest university dance festival; and Winterfest, a tri-campus week of parties, films, concerts and more. Other favourites include Engineering’s annual comedy show, Skule Nite, University College’s annual Follies, U of T Scarborough’s annual Cultural Mosaic, U of T Mississauga Pub Nights, and Victoria College’s The Bob, a rowdy, often raunchy, satirical revue. First staged in 1874, The Bob is Canada’s longest-running sketch comedy show.

The University of Toronto has a long tradition of graduating civic and organizational leaders. Across all faculties, colleges and campuses, we offer numerous opportunities for students to develop and hone the knowledge and skills necessary to catalyze contributions of significance, including our Learning to Lead Program, Peer Facilitation Program, Community-Engaged Learning Courses and Centre for Community Partnerships. These formalized programs provide students with skills they can put into practice immediately through one of the thousands of opportunities offered by U of T’s governance and student groups.

Quick Facts:

- U of T offers more than 700 undergraduate programs.
- The University’s library system is the third largest in North America.
- U of T offers second entry professional programs in Nursing, Dentistry, Pharmacy, Law and Medicine.
- The University offers more than 60 professional graduate programs and 76 combined programs.
- The University of Toronto offers 280 master’s and doctoral level graduate programs in a wide variety of fields.
- The University is a research powerhouse, attracting $1.2 billion in research funding each year.
- The University is a leader in commercialization and the creation of new start-ups.
- Each year, U of T employs more than 3,000 students in Work-Study jobs.
- The University of Toronto’s faculty produce more research and scholarships than almost any other institution worldwide; in North America, only Harvard University publishes more academic papers.
- The University of Toronto has more than 1,000 student clubs across all three campuses.

The University of Toronto continues to soar in global university rankings and is consistently ranked first in Canada.
“The most culturally mixed city on the continent truly is one of Earth’s closest approximations of urban paradise.”

— Will Wilkinson, political essayist

10,000

There are 10,000 theatrical performances in Toronto’s 90 theatres annually, making the city the third largest English language theatre destination in the world, after New York and London.

1,200

There are 1,200 stores and restaurants in the PATH, North America’s largest continuous underground network. With 30 km of walkway, PATH also connects 50 office towers, five subway stations, six major hotels and Union Station.

20,371

There are 20,371 intersections among the City of Toronto’s 10,033 streets.

T.O.

Toronto has almost as many nicknames as it does neighbourhoods, and each carries the story of an era: today’s nicknames are “The 6ix”, “T.O.” (tee-oh) and “T-dot”.

The Greater Toronto Area is the best of all worlds.

The city has, at its very core, exceptional diversity: nearly half of Toronto’s 2.7 million residents were born outside Canada. Our city’s living mosaic continues to draw the best and the brightest, who come here seeking world-class business, culture and education in one of the safest cities in North America.

They find it, too, in the Fortune 500 company headquarters along Bay Street and various districts of Mississauga; in the research centres throughout the city; in the museums and galleries, literary, music and film festivals that take place throughout the year; and in the numerous educational institutions, of which U of T is a leader.

Celebrations

The city knows how to throw a party. Annual traditions include: the Toronto International Film Festival, which brings hundreds of movies and parties to the city every September; Nuit Blanche, an all-night outdoor art exploration; Caribbean Carnival, one of the largest festivals of Caribbean music, dance and artisanship; North by Northeast (NXNE) Music Festival, a showcase of 1,000+ indie bands, and much more, over three nights; Toronto Jazz Festival, which infuses Nathan Phillips Square with cool jazz on warm nights; and one of the largest Pride Week celebrations in North America.

Transit

Each campus is well connected and accessible to the GTA by public transit. Toronto’s transit system (TTC) is fast, clean and reliable. Subways, buses, streetcars and light rail provide frequent and comprehensive access across the region. U of T also offers direct shuttle bus service between U of T Mississauga and U of T St. George. U of T Mississauga students receive a MiWay (Mississauga Transit) travel pass valid for unlimited travel while enrolled in courses.

If you prefer self-propelled transportation, you’ll love this city of cyclists, with its bike lanes and ubiquitous ring-on-a-stick ‘parking’ spots.

Mississauga

Just west of Toronto, Mississauga is Canada’s sixth largest city. It mixes urban, suburban and natural living. Marvel at the engineering wonder of the Absolute Towers, 50- and 56-storey towers that torque 180 degrees. Stroll along the 13 km waterfront of Lake Ontario. Catch a pro athletic game at the Hershey Centre. Grab a performance or exhibition at the Living Arts Centre. Shop at Square One, Canada’s second largest mall.

Annex

The St. George campus is nestled beside the Annex, a century-old neighbourhood known as much for its intellectual and cultural offerings as for its maple-lined, one-way streets and grand Victorian homes. It is also within walking distance of numerous international communities and Queen Street.

International Villages

All situated close to the St. George campus, you can buy fresh ginger at the Chinatown street market, listen to Fado in Little Portugal, or watch the World Cup at an espresso café in Little Italy. India, Korea and all other curves of the globe are represented, creating Toronto’s mosaic that includes numerous communities united by a distinct culture, yet an integral part of the city’s overall personality.

Queen Street

Toronto’s cool factor is evident along Queen Street West and area. A short distance from the St. George campus, vintage clothing shops and vendors selling handmade jewelry coexist with stores offering the freshest styles from local indie designers. The wide sidewalks are bustling with patios in warm weather and a variety of live music can be found each night of the week ranging from rock to jazz.

Scarborough

Located in the eastern part of Toronto, Scarborough showcases some of the city’s most popular and intriguing landmarks. The Scarborough Bluffs are 15 km of earthen cliff shoreline along Lake Ontario. Rouge Park is Canada’s first urban national park and the largest urban park in North America. The Toronto Zoo is the world’s third largest zoo, renowned for its education and conservation activities. Accessible by public transit, the area is Toronto’s greenest, and is also one of the most diverse and multicultural neighbourhoods in the city; U.S. economist Tyler Cowen calls it the “best ethnic food suburb”.

The City of Toronto’s official motto is “Diversity Our Strength,” which speaks both to the essence of the Greater Toronto Area and to its residents.
MAKE YOUR MARK!

First Year Foundations: The One Programs

If you’re a first-year arts, science or business student, choose to take advantage of U of T’s First Year Foundations: The One Programs learning opportunities. Through interactive group work, travel or community engagement, these programs will help you transition successfully to university life, as well as build critical thinking and writing skills, intellectual independence and creative imagination.

These dynamic small-group offerings allow you to network with peers, mentors and professors, and explore a broad range of compelling issues. Take some time to read more about U of T’s first-year learning options to determine which is right for you.

uoft.me/foundations

VIC ONE
Pursue the award-winning Vic One Program – the first One program launched in 2003. Intellectual curiosity is encouraged as students pursue interdisciplinary studies in one of eight Vic One streams focusing on the humanities, social sciences, education, business leadership, physical and mathematical sciences, creative arts and society, and the life sciences. Engage with stimulating guest speakers, experiential learning opportunities, peer mentors and your professors. Enjoy small discussion based seminars that help you develop strong critical thinking, research and writing skills providing you with a solid foundation for success.

Number of credits: 2 Vic One credits + 1 Co-requisite credit
uoft.me/vic-one

INNIS ONE:
The Creative City
Innis One encourages you to foster your creative and critical capacities by exploring the dynamism of the urban environment through the lens of the College’s three academic programs: Cinema Studies, Urban Studies and Writing and Rhetoric. Through imaginative, inquiry-based and civic-minded learning, you will gain new insights on the interplay between film, writing and urban landscapes. Small seminars feature films, guest lecturers and special field trips.

Number of credits: 1 credit (via 2 half-credit courses)
uoft.me/innisONE

NEW ONE:
Learning Without Borders
We live in a globalized world. What is your role and responsibility as citizens? New One courses tackle big issues of our everyday lives that connect us, locally and globally - Food, Language, Digital Technology and Community Art. In small classes and Learning Labs that include all students in the program, you’ll explore and question these connections. You’ll deepen your understanding of the topics and build your academic skills, drawing on your own experience and trying out creative ways of learning. Your professors and fellow students, guest speakers, and visits to community organizations will inspire you as you engage with social issues that concern us all.

Number of credits: 1 credit (via 2 half-credit courses)
uoft.me/newone
SMC ONE:
The Gilson Seminar in Faith and Ideas
SMC One: The Gilson Seminar introduces students to university-level studies on a small scale, with peers who share an interest in faith, ideas, and international experience. The Seminar consists of two half-courses, each featuring lectures, small-group discussions, community events, and guest speakers. Students will explore the intersection of faith with today’s most important questions, and will have a chance to propose and participate in innovative social justice projects.

Number of credits: 1 credit (via 2 half-credit courses)
uoft.me/gilson

UC ONE:
Engaging Toronto
University College’s UC One is an exciting set of small-enrolment interdisciplinary courses. Choose from one of four courses that engage different aspects of Toronto: the city’s citizenry, the health of its urban fabric, its performing arts scene and the culture and politics of its sexual diversity.

Number of credits: 1 credit
uoft.me/uc-one

WOODSWORTH ONE
Are you seeking small classes, but a big community? Interactive, hands-on learning? Skills-building for academic success? Then Woodsworth One is for you!

The program offers two interdisciplinary streams. Order and Disorder focuses on crime, conflict, and law to consider the ways in which social, political, and economic orders arise and collapse. Popular Culture Today explores contemporary literature, film, and music, examining recent media trends and their effects on our lives. In both streams, students take two half-credit seminars that emphasize class discussion and small group activities, and participate in weekly co-curricular sessions featuring field trips, guest speakers, films, and workshops.

Number of credits: 1 credit (via 2 half-credit courses)
uoft.me/woodsworth-one

MUNK ONE:
Global Innovation
Think big and innovate! Through case studies of complex global challenges, Munk One students work in small seminars to identify innovations that succeed, how successful innovations can be fostered, and why innovative solutions sometimes fail to address global problems. Beyond the classroom, you participate in cutting-edge research labs that are tackling real-world issues. Join the rich intellectual community of the Munk School of Global Affairs, and team up to design projects that help address pressing challenges in cyber security, health, development, sustainability and human rights among others.

Number of credits: 2 credits
uoft.me/munkone

utmONE
Enrich your first year at U of T Mississauga by applying for utmONE Scholars, or by enrolling in a utmONE course! Whether you’re in an intellectually stimulating seminar environment that is focused on fostering your research skills (utmONE Scholars), or are in an engaging small-class setting that intently centres on academic skill development (utmONE courses), you will experience interactive learning and make lasting, personalized faculty connections.

Number of credits: Offers 0.5 credit for each utmONE Scholars seminar or utmONE course; can be counted toward Distribution Requirements
uoft.me/utmONE

UTSC ONE
The first year experience at U of T Scarborough offers options for small seminars, fieldwork and engaging workshops to provide you with hands-on educational opportunities. You will have access to a multitude of resources to support your transition to university and your future success.

Number of credits: 0.5 credit for each academic course; other options not-for-credit
uoft.me/utscone
U of T offers exceptional range, choice and depth of study. Undergraduate students at U of T can choose from more than 700 academic programs, and they can learn from the best minds and most dedicated teachers in each of these fields of study. Over 90 percent of our most accomplished researchers teach undergraduate classes. As a U of T student, you’ll want to take advantage of the University’s smaller learning environments. Much like the Toronto region, the University is a community of communities. Working with faculty and other students in close-knit learning groups, students can tailor their experiences to their interests and develop passions that will help them make their mark on the world.

“U of T encourages students to look at the world as a practical laboratory to apply new ideas and explore different avenues.”

– Jasmeet Sidhu, journalist, activist, recent alumna

Build Your Own Degree: Specialists, Majors and Minors
When building an Arts, Science, or Business degree, you’ll have the opportunity to choose from Specialist, Major, and Minor program options. A Major consists of a concentration of courses in a specific subject area and usually makes up a third of a student’s total courses (6 - 9 credits). Specialists are advanced concentrations, where more than half of the courses will be in one academic area (9 - 16 credits). Minors allow students to explore their general interest in a subject area (4 - 5 credits). Overall, in an undergraduate degree, students will take a minimum of 20 credits in a variety of subjects. Programs allow students to concentrate on one or more academic areas while also taking elective courses.

Research Opportunities Program
Ready to start making your mark? Beginning in second year, the Research Opportunity Program (ROP) gives you the opportunity to conduct research outside of the classroom, working on meaningful projects with some of the University’s most renowned professors – for course credit!

Career Learning
Co-op: Fast-track your career with one of the 54 Co-op programs available only at U of T Scarborough. Alternate study terms with work terms, for a total of 8 or 12 months of full-time, paid employment. Whether you’re a management student looking at international finance in a foreign context or an aspiring biologist exploring genomics at a teaching hospital, a tailored, unique experience can be found through the Co-op programs.

Professional Experience Year (PEY): Students at U of T Mississauga or in Engineering, Computer Science or selected programs in other divisions, can participate in paid internships. Spend 12 to 16 months working alongside leaders in your field—anywhere in the world. Engineering students can also choose a four-month Engineering Summer Internship program (eSIP).

Global Learning
Our students are in classrooms all over the world. The Centre for International Experience partners with more than 150 institutions in over 40 countries to offer a variety of global opportunities, and the Summer Abroad program offers more than 39 courses in 19 countries. U of T Scarborough Co-op students may participate in international work terms, field courses and more.

Service Learning
All three campuses offer you the opportunity to combine classroom learning in a credit-earning course with real-life experiences in the surrounding community to impact critical social issues. Examples include a French student improving her language ability by working with an immigration settlement agency or a Human Biology student sharing his passion for science with young people.
YOUR WORLD AWAITS
U of T’s Three Campuses

The University of Toronto is committed to providing learning opportunities that match the diverse needs of students. Students at each of our three campuses benefit from distinctive learning environments, experiences and co-curricular opportunities, while earning the same prestigious U of T degree.

**U of T St. George**

The historic U of T St. George campus is the most urban in the U of T triad. The juxtaposition of Gothic architecture and sleek ultra-modernism is a metaphor for the range of offerings within its bounds. Since 1827, a tradition of academic excellence and achievement has driven the University’s aspiration to continue graduating leaders who can and will make significant contributions to the world. U of T St. George’s location in the heart of downtown Toronto provides a rich cultural context for a myriad of learning options. Five direct-entry undergraduate faculties: Arts & Science (including seven colleges); Engineering; Music; Kinesiology & Physical Education; and Architecture, Landscape, and Design as well as the professional faculties call U of T St. George their home. Students across each discipline have a role to play inside and outside the classroom.

**U of T Mississauga**

U of T Mississauga is a student-centred research community highly respected for its academic programs and research contributions. Located in a park-like expanse in Canada’s sixth largest city, U of T Mississauga is approximately 27 km from Toronto city centre and directly accessible by U of T shuttle bus and public transit. U of T Mississauga’s unique educational programs include: Canada’s premier Forensic Science degree program; a Department of Language Studies that delivers courses in 10 languages; two business degree options (BCom, BBA); and joint programs with Sheridan College in Art and Art History; Theatre and Drama; and Communication, Culture, Information and Technology. It is also home to one of the academies of U of T’s Faculty of Medicine and the Institute for Management and Innovation. The University has strong ties with the City of Mississauga as well as its residents, which leads to learning experiences throughout the city that include opportunities in government, business and the arts.

**U of T Scarborough**

U of T Scarborough students get a head start on their futures through U of T’s only co-operative learning programs as well as internships, community engagement, leadership development and hands-on research with professors who are uncovering the keys to a healthy planet, a healthy population and a flourishing global society. Within UTSC’s close-knit community, students can create one-of-a-kind learning experiences. You’ll find programs in management, arts and sciences, along with specialized programs such as Mental Health Studies and International Development Studies, as well as unique joint degrees, combined bachelor/masters degrees and double degrees. UTSC’s dynamic and growing campus is surrounded by parklands and is at the heart of a multicultural neighbourhood. It is a showcase for new buildings by award-winning architects including the Toronto Pan Am Sports Centre (2014) and the Environmental Science & Chemistry Building (2015).
HOUSING GUARANTEE

Residence is guaranteed for all new full-time students entering their first year of a post-secondary program for the first time, provided that they have indicated their interest in residence by completing the university’s common residence application (MyRes) by March 31, and have received and accepted an offer of admission by June 1.

ON- and OFF-CAMPUS HOUSING

Each of our three campuses has a student housing office where you can get information about living on- and off-campus. For more information, visit uoft.me/myplace.
St. George is the largest and most urban of U of T’s three campuses. A thriving mix of century-old architecture and urban innovation, the St. George campus includes five direct-entry undergraduate faculties and seven Arts & Science colleges, as well as a wide range of professional and graduate programs. Each of the seven colleges has its own residences and study spaces, giving you the advantage of combining small school surroundings with the experience of attending a large university. Across the campus, you’ll discover amazing spaces in which to work and play.

Community

U of T St. George provides an extensive range of student services, from career and academic supports, to counselling and health care, to student housing services and beyond. More than 800 recognized student organizations provide opportunities to get involved in the arts, politics, culture, spirituality, activism and athletics, giving you the chance to take your learning beyond the classroom. What’s more, you’re just steps from some of Toronto’s most vibrant and eclectic neighbourhoods—so, while there are plenty of places to study and chill out on campus, it’s easy to check out the city’s arts, culture, sports and nightlife.

Resources

Life and learning on the St. George campus takes place at many diverse and innovative landmarks across campus. Experience the treasures in the 1970s larger-than-life Robarts Library or conduct some cyber-sleuthing at the Citizen Lab. Exercise your flair for drama at the Hart House Theatre, where Donald Sutherland was once a student actor. You will have access to some of the world’s leading minds in art, political science, philosophy, engineering, science, drama and music. After all, nine Nobel Laureates have taught, or were students themselves, on this very campus.
St. George Residences

Your home away from home might be in one of the seven colleges: Innis, New, St. Michael’s, Trinity, University, Victoria and Woodsworth, or at Chestnut Residence. Each offers a variety of room styles.

Dormitory-style residences feature single and double rooms with communal dining areas. Shared apartment-style residences are primarily single rooms available as same-gender or co-ed with shared kitchen, living area and washrooms. The shared historic houses on campus feature single and double rooms.

Living on campus provides you with a live-in support network of Resident Assistants, or Dons, as well as close proximity to classes, study areas and the Athletic Centre. The U of T Housing Services office is the place to get information about on- and off-campus housing. For more information, visit uoft.me/livingoncampus.

Why Study Arts & Science

Experience the best of big and small with the Faculty of Arts & Science at the University of Toronto. Enjoy the broadest range of academic options in Canada, while also finding a small community experience through our unique college system. With the incredible flexibility and distinct learning opportunities available, the Faculty of Arts & Science offers you an outstanding undergraduate experience.

Choice and Flexibility

With over 300 programs and 4,000 courses to choose from, you can find countless ways to pursue your academic interests in a wide array of arts, science and business disciplines. Choice and flexibility are hallmarks of a Faculty of Arts & Science education. You can combine programs in vastly different academic areas to create a degree that is personalized to your interests. Interested in international relations and physics? Or computer science and Russian literature? How about human biology and actuarial science? Our flexibility gives you the freedom to mix and match your programs.

Distinct Learning Opportunities

The Faculty of Arts & Science is always striving to create innovative and exciting learning opportunities. These experiences begin right away in first year with small-group opportunities like First-Year Seminars, First-Year Learning Communities and First-Year Foundations: the One Programs. As you progress into upper years, you can travel internationally with our Summer Abroad courses and International Course Modules and gain exposure to research with the Research Opportunity Program and senior research courses. These opportunities complement and enhance your academic career.

Distinctive Traditions

The St. George Campus Colleges

As a student in the Faculty of Arts & Science on the St. George campus, you will become a member of a unique academic and social university community. Every Arts & Science student is a member of a college, a close-knit community within the umbrella of one of the nation’s top universities.

Each of the seven colleges has its own culture, yet provides similar services including: academic counselling and support; financial counselling, scholarships and bursaries; writing centres; orientation activities; accommodation; study spaces, reading rooms and computer facilities; social and cultural events; student government, newspapers and other resources.

Students in the Faculty of Arts & Science have access to all programs regardless of their college affiliation; your college membership does not restrict you in any way with regards to program enrollment. Your college membership will be an integral part of your U of T experience. Your college is where you'll spend time between classes, where you'll meet some of your closest friends, and find your place in the wealth of groups and activities that make up college life.

Faculty of
Applied Science
& Engineering

Study Engineering at U of T

U of T’s Faculty of Applied Science & Engineering is the top-ranked engineering school in Canada and one of the best in the world. At U of T, you will have unparalleled opportunities to innovate, create and collaborate across disciplines as you develop the technical, leadership and entrepreneurial competencies you will need to succeed in a competitive global environment. As part of the U of T Engineering community, you will join a vibrant, tightly knit, and diverse group of top students, award-winning educators and exceptional researchers from around the world.

Customize your Academic Experience

U of T Engineering offers the most dynamic engineering education in Canada, taught by world-class educators and researchers. You will have every opportunity to tailor your academic experience to suit your goals perfectly:

- Graduate with an extra set of credentials through our cross-disciplinary engineering minors and certificates (e.g., engineering business, bioengineering) or with a minor through the Faculty of Arts & Science.

- Earn a competitive salary while gaining 12 to 16 months of professional work experience through the optional Professional Experience Year (PEY) internship program.

- Turn your ideas into a successful startup through The Entrepreneurship Hatchery.

- Hone your strengths as a leader through the Institute for Leadership Education in Engineering.

- Take your engineering education global by studying abroad at one of 160 partner universities in 60 countries.

Start

There are two distinct pathways that lead to your four-year Bachelor of Applied Science (BAsc), which is the traditional degree offered by Canadian engineering programs and equivalent to a BEng.

1. Core Programs

Declared: If you know which area of engineering you want to study, you can apply directly to one of the following Core 8 programs: Chemical; Civil; Computer; Electrical; Industrial; Materials; Mechanical; and Mineral. Upon completion of your Core 8 program, you’ll receive a BAsc.

Undeclared: Known as TrackOne, this first-year program is designed for those who are interested in exploring all fields of engineering before declaring their area of interest. At the end of first year, you will select one of the Core 8 programs for the remainder of your degree.

2. Engineering Science

This direct-entry program is for students who are looking for an extra academic challenge. In the first half of your four-year program, you will build your foundation in math, science, computing, humanities and a breadth of engineering topics. For the last two years of your program, you will specialize in one of eight majors: Aerospace; Biomedical Systems; Electrical & Computer; Energy Systems; Engineering Mathematics, Statistics & Finance; Engineering Physics; Infrastructure; or Robotics. Students in Engineering Science graduate with a BAsc in Engineering Science.

5,441 Students enrolled 10 Programs

Contact information: 416.978.3872 uoft.me/discoverENG
The undergraduate programs in Architecture and Visual Studies provide a broad, design and arts-based lens through which to study humanities, and gain a deep foundation in all the disciplines related to architecture, urbanism, and visual art. All students complete an Honours Bachelor of Arts (HBA) degree. The Daniels Faculty is an internationally renowned design school located in the heart of U of T St. George in downtown Toronto. Studies at home and abroad provide a dynamic laboratory for creative design, research, and education. At Daniels, you will have direct access to distinguished professors, a diverse and talented group of graduate students, and a wide array of courses and academic enrichments that one of the world’s top-ranked universities, and one of its most cosmopolitan cities, has to offer.

Why Study Architecture

The Daniels Faculty prepares its graduates to imagine the future of our built environment, grounding them in innovative approaches to design. Our graduates pursue careers in a wide range of design and environmentally related fields, from architecture, city planning, sustainable building sciences, to film. Whether you eventually wish to enter the professions of Architecture or Landscape Architecture (both of which require graduate degrees at the master’s level), or plan on a career or graduate study in a related field, the Architectural Studies program will give you unparalleled and internationally recognized academic preparation.

Why Study Visual Studies

Our innovative Visual Studies program provides instruction in studio practice combined with critical discourse involving all aspects of contemporary visual culture, through lectures, seminars, and field trips. The Daniels Faculty provides opportunities for students to explore studio classes that are offered in a variety of media. Courses are offered in most areas of contemporary art practice, including discipline-specific and interdisciplinary studios. Visual Studies courses emphasize a strong commitment to the social, cultural, and theoretical issues embodied in the current art community.
Why Study Kinesiology & Physical Education

With the growing awareness of the role of physical activity in the optimization of health, and in the prevention and treatment of the leading causes of illness and disease, there is an increasing demand for professionals in the field of kinesiology and physical education. By studying kinesiology and physical education, you will gain a strong background in the behavioural, biophysical, and socio-cultural bases of physical activity and health, and the skills necessary to work in a variety of settings (for example: health care facilities, universities, research institutes, schools, sport organizations, recreation sites and government sport agencies).

Kinesiology & Physical Education at U of T

U of T’s Faculty of Kinesiology & Physical Education offers a compelling range of courses that provide you with theoretical knowledge, as well as an extensive and unmatched experiential education curriculum, to develop hands-on skills. Students are able to study within a small supportive community and state-of-the-art facilities. The undergraduate program is accredited in Kinesiology and also in Physical Education Teacher Preparation. All courses are taught by accomplished scholars and scientists who bring their scholarship and research expertise into their classrooms and teaching labs.

Contact information:
416.978.0278
uoft.me/kinesiology

Start

All applicants to the Faculty of Kinesiology & Physical Education must submit an online Statement of Interest in addition to meeting the academic requirements. If you do not complete the Statement of Interest before the deadline, you will not qualify for admission. Complete admission information is available at uoft.me/kinesiology.
Why Study Music
Music expresses the heart, the mind and the soul. Its ability to transcend language and culture makes it accessible to anyone, regardless of age, gender or ethnicity. Musicians and music educators have the power to inspire, inform and entertain, making music one of the most enriching art forms in the world. By studying music, you will gain both a theoretical and historical understanding of music fundamentals and develop transferable skills that are suited to a variety of careers, even those outside of music. These skills include performance, composition and writing, research, presentation, teamwork and leadership.

Study Music at U of T
At U of T’s Faculty of Music, you will receive a thorough grounding in all aspects of music while specializing in one of the following degree options: Performance, Composition, Comprehensive, Music Education or History and Theory. Our outstanding faculty and location in one of North America’s most active music scenes combine to help the Faculty of Music turn out a high percentage of graduates who go on to a successful career in music.

The well-connected faculty, which includes both the who’s who and rising stars of Canadian music, provide entry to the professional music world so that you will be ready to launch your career by the time you graduate.

>Start
If you live within 400 km (250 miles) of Toronto, you must audition in person. If not, you may submit a recorded audition, but it is strongly advised to come for a live audition. Auditions are held in February and March. Please review uoft.me/MusicAdmReq for guidelines.

As part of the audition and interview process, you will be asked to play pieces you have prepared and answer questions that help us assess your musical knowledge as well as your musical interests. You may audition on any standard orchestral or band instrument, classical guitar, free bass, accordion, historical instrument, piano, organ or voice. Complete admission information is available at uoft.me/studyMusic.
Faculty of Arts & Science
Admission Requirements

All program areas require English. Mathematics (including Calculus) is required for programs with Mathematics prerequisites.

Admission will be based on the academic record, with close attention paid to the prerequisite subjects, plus requested supplementary or profile information (if required).

Details about admission requirements pertaining to your educational jurisdiction are available at future.utoronto.ca/international

**Direct Entry Professional Faculty Programs Admission Requirements**

Admission Requirements for Architectural Studies and Visual Studies; Engineering; Music; Kinesiology & Physical Education

All program areas require English. Mathematics (including Calculus) is required for programs with Mathematics prerequisites.

Admission will be based on the academic record, with close attention paid to the prerequisite subjects, plus requested supplementary or profile information (if required).

Details about admission requirements pertaining to your educational jurisdiction are available at future.utoronto.ca/international

**Note:**
- Architectural Studies and Visual Studies applicants must complete the One Idea supplementary application form by February 1, 2018.
- Engineering applicants must complete a supplementary Online Student Profile by February 1, 2018.
- Kinesiology and Physical Education applicants must complete an online Statement of interest form.
- Music applicants must submit a supplementary online Music Questionnaire by January 10, 2018, and complete an audition/interview.
U of T Mississauga offers you a U of T degree in the humanities, social sciences, sciences, commerce, management, communications, forensic science, fine arts, and theatre. Stimulating research opportunities, a vibrant campus culture and a supportive learning environment fostered by professors who are renowned experts in their respective fields combine to form one of Canada's best university experiences.

Distinctive Options

U of T Mississauga is unique amongst Canadian universities in offering both undergraduate Bachelor of Business Administration and Bachelor of Commerce programs.

Combined Degree/Diploma/Certificate Options

If you are looking for a degree with more practical experience, U of T Mississauga offers joint programs with Sheridan College in CCIT (Communication, Culture, Information & Technology), Art and Art History, or Theatre and Drama. The benefits of these options are that you earn both a university degree from U of T Mississauga (where you take academic classes) and a college diploma from Sheridan.

Combined Honours Bachelor’s/Master’s degree programs are offered in environmental management, environmental science, psychology/child study & education, and exceptionality in human learning/child study & education. Honours Bachelor of Arts/Master of Information programs are available in digital enterprise management, interactive digital media, and communication, culture, information & technology.

Experiential Learning

U of T Mississauga recognizes that students need both research and practical skills to be successful following graduation. The University offers a number of ways to gain these skills.

Academic Internships and Work Integrated Learning

The Experiential Education Office links students to unpaid Academic Internship, Work Integrated Learning, Practica and Community Engaged Service Learning opportunities in departments and programs such as Biology, CCIT, Economics, Education, Environment/ Geography, Forensic Science, History, Language Studies, Management & Commerce, Psychology, Professional Writing & Communication, Sociology, Visual Studies, and Women & Gender Studies.

Research Opportunity Program (ROP)

The ROP fully utilizes the benefits of an undergraduate education within a research intensive university. Upper-year students have the opportunity to conduct research for course credit with some of the University’s most renowned professors.

Professional Experience Year (PEY)

Students in select programs may take a professional experience year (PEY). This 12- to 16-month paid work placement allows you to work on large scale projects, reach professional milestones, network, develop lasting professional relationships and gain significant experience outside the classroom.

U of T Scarborough offers you a prestigious U of T degree through 180 program options that span the arts, sciences, and management, including unique programs that blend disciplines and provide opportunities to apply this knowledge outside the University. UTSC provides experiential learning through U of T’s only co-operative learning programs as well as joint degree plus diploma/certificate programs, combined bachelor/masters programs, double degrees and hands-on research with professors who are uncovering the keys to a healthy planet, a healthy population and a flourishing global society.

**Career Learning**

**Co-op**

Fast-track your career with one of the 54 Co-op programs available only at U of T Scarborough. Alternate study terms with work terms, for a total of 8 or 12 months of full-time, paid employment. Whether you’re a management student looking at international finance in a foreign context or an aspiring biologist exploring genomics at a teaching hospital, a tailored, unique experience can be found through the Co-op programs.

**Service Learning**

UTSC offers you the opportunity to combine classroom learning in a credit-earning course with real-life experiences in the surrounding community to impact critical social issues. Examples include a French student improving her language ability by working with an immigration settlement agency or a Human Biology student sharing his passion for science with young people.

Beyond Undergraduate Studies.

U of T offers many professional and graduate programs that give you the option to explore studies beyond your undergraduate degree. While some programs require university preparation, others require a university degree. See faculty websites for specific admission information.

Art, Architecture, Landscape, and Design
The John H. Daniels Faculty of Architecture, Landscape, and Design (Daniels) focuses on interdisciplinary training and research to test the limits of 21st century design.
Length of Program: Varies
Phone Number: 416.946.3897
Information: uoft.me/daniels
A complete university degree required

Biomedical Communications
A Faculty of Medicine program, Biomedical Communications offers an interdisciplinary graduate program in the design and evaluation of visual media in medicine and science.
Length of Program: 2 Years
Phone Number: 905.569.4849
Information: uoft.me/biomedcomm
A complete university degree required

Dentistry
Consistently ranked among the top programs in Canada, U of T’s Faculty of Dentistry is renowned for innovations in biological and clinical research, affiliations with leading health care centres and enriching student outreach programs.
Length of Program: 4 Years
Phone Number: 416.978.4901 ext. 4373
Information: www.dentistry.utoronto.ca
Some university education required

Education
The Ontario Institute for Studies in Education is an all-graduate institute. We offer programs in curriculum, teaching and learning; applied psychology and human development; leadership, higher and adult education; and social justice education.
Length of Program: Varies
Phone Number: 416.978.4300
Information: uoft.me/oiseut
A complete university degree required

Forestry
The Faculty of Forestry offers an innovative, interdisciplinary course-based Master of Forest Conservation program, which is accredited by the Canadian Forestry Accreditation Board, and includes a three-month internship and opportunities for international study.
Length of Program: 16 months
Phone Number: 416.946.7952
Information: uoft.me/forestry
A complete university degree required

Information
The iSchool develops professionals, grounded in practice, policy and research, in the fields of information, knowledge management, digital communication and curation, libraries, archives and museums for the 21st century.
Length of Program: Varies
Phone Number: 416.978.7121
Information: uoft.me/iSchool
A complete university degree required

Law
The Faculty of Law has a long, illustrious history of educating the best lawyers and legal scholars in Canada. We welcome students from a diversity of personal and educational backgrounds, and life experiences.
Length of Program: 3 Years
Phone Number: 416.978.3716
Information: uoft.me/Law
Some university education required

Management
U of T’s Rotman School fosters a new way to think that enables graduates to tackle today’s global business and societal challenges. With faculty ranked 3rd in the world for research by the Financial Times, you will learn from the best at Canada’s leading university.
Length of Program: Varies
Phone Number: 416.978.3499
Information: uoft.me/Rotman
A complete university degree required

Medical Radiation Sciences
Jointly offered by the Faculty of Medicine and The Michener Institute of Education at UHN, the Medical Radiation Sciences Program integrates proficiency in diagnostic and therapeutic patient care with advanced technology.
Length of Program: 3 Years
Phone Number: 416.978.7837
Information: uoft.me/medicalradiationsciences
Some university education required
**Medicine**

U of T’s Faculty of Medicine and affiliated hospitals are among the leading health sciences centres for research and education in North America, with a global reputation for excellence and innovation.

Length of Program: 4 Years  
Phone Number: 416.978.7928  
Information: uoft.me/studymd  
Some university education required

**Nursing**

The Lawrence S. Bloomberg Faculty of Nursing ranks among the premier nursing programs in the world in both education and research.

Length of Program: 2 Years  
Phone Number: 416.978.2392  
Information: uoft.me/bloombergnursing  
Some university education required

**Occupational Science & Occupational Therapy**

A Faculty of Medicine program, Occupational Science and Therapy prepares students to become innovative occupational therapists, clinician scientists and educators.

Length of Program: 2 Years  
Phone Number: 416.946.8571  
Information: uoft.me/ot  
A complete university degree required

**Pharmacy**

The Leslie Dan Faculty of Pharmacy offers an innovative PharmD program for students interested in becoming front-line healthcare practitioners. Through in-class, laboratory, and experiential learning, students learn to become medication therapy experts and productive members of the healthcare system.

Length of Program: 4 Years  
Phone Number: 416.978.3987  
Information: uoft.me/pharmacy  
Some university education required

**Physical Therapy**

A program within the Faculty of Medicine, the Master of Science in Physical Therapy develops highly competent academic practitioners who demonstrate the essential competencies of a practicing physical therapist in a wide range of settings upon graduation.

Length of Program: 2 Years  
Phone Number: 416.946.8641  
Information: uoft.me/PT  
A complete university degree required

**Physician Assistant**

The BScPA Program offers the flexibility to do much of your learning at home, with clinical experience across Ontario. PAs are one of the fastest growing healthcare professions in Canada.

Length of Program: 2 years  
Phone Number: 416.978.1876  
Information: Paconsortium.ca  
Some university education required

**Social Work**

The Factor-Inwentash Faculty of Social Work focuses on the advanced education of social work professionals, with the aim of preparing them to deal with the ever-changing challenges of our society, locally, nationally and internationally. Our graduates are sought by leading social service agencies, education and healthcare institutions, governments and corporations across North America and around the globe.

Length of Program: Varies  
Phone Number: 416.978.3257  
Information: uoft.me/socialwork  
A complete university degree required

**Speech-Language Pathology**

The Department of Speech-Language Pathology in the Faculty of Medicine prepares highly competent clinical professionals who find employment in a variety of settings related to assessment, intervention and/or study of communication, swallowing and hearing disorders.

Length of Program: 2 Years  
Phone Number: 416.946.5456  
Information: uoft.me/slp  
A complete university degree required

**Theology**

U of T’s affiliate the Toronto School of Theology provides graduate theological education in academic and professional programs for various forms of faith-based ministries, professional enrichment or further graduate research.

Length of Program: Varies  
Phone Number: 416.978.4039  
Information: tst.edu  
A complete university degree required

**School of Graduate Studies**

U of T is where Canada goes for answers to its big questions – answers that are being provided by faculty and students of Canada’s largest and most prestigious graduate school. With unparalleled research and education facilities as well as outstanding libraries, our world-class graduate students are studying and working with the most productive research faculty in Canada. Our graduate students’ research is recognized internationally and published in leading journals; they also lead the nation in winning external research grants.

By pursuing graduate studies at U of T, you’ll be learning first-hand from some of the world’s top researchers, scholars, and professionals as they work to solve the most urgent questions of the 21st century. Under their guidance, you’ll develop the skills and reputation you need to launch into a lifelong path of intellectual discovery and professional success.

Learn more about our over 280 research and professional master’s programs and doctoral programs across more than 80 departments. Explore the potential for interdisciplinary research in more than 40 collaborative programs, or the possibility to combine two existing degree programs in different disciplines with our 76 combined degree programs or pursue graduate-level academic study without enrolling in a degree program in one of our diploma programs.
The cost of a university education is a combination of both tuition fees and living expenses. Considering your financial options today can help you prepare your budget before you ever set foot on campus.

**Scholarships & Financial Aid**

All secondary school applicants are considered automatically for admission scholarships based on their academic performance. We offer outstanding incoming students approximately 4,400 admission scholarships that total nearly $15 million. Scholarship offers are generally sent at the same time as our offers of admission. Canadian citizens and permanent residents living outside of Canada are eligible for the University of Toronto financial aid guarantee that assures support for students with financial need.

U.S. citizens can apply for financial assistance from the U.S. William D. Ford Federal Direct Loan Program. The University of Toronto is a recognized post-secondary institution for Federal Direct Loans (PLUS/Subsidized/Unsubsidized). Education Savings Plans and US Federal Education Tax credits are also applicable. Complete details can be found at uoft.me/usloans.

To obtain a study permit, international students must demonstrate to Citizenship and Immigration Canada that they have sufficient resources to cover tuition and expenses for at least one year of university.

**Lester B. Pearson International Scholarships**

Study where the world comes together.

The Lester B. Pearson International Scholarships at the University of Toronto offer outstanding students from around the world, including international students from high schools in Canada, access to a transformative four-year undergraduate education. Imagine attending a top-ranked university located in one of the world’s most multicultural cities, where students from over 160 countries come together to study, live and create lasting experiences. Imagine joining a vibrant and welcoming campus community where you will learn from brilliant professors who are shaping the future of their respective fields. As a Pearson Scholar, you will meet the world and gain a global perspective on issues that matter most to you. In 2017, the University of Toronto selected 37 international students to be the inaugural cohort of Pearson Scholars. By 2020, U of T will fund 150 Pearson Scholars on an ongoing basis. Learn more at pearson.utoronto.ca.

**U of T Engineering Scholarships**

The Faculty of Applied Science & Engineering has scholarships available for international students. We encourage you to visit discover.engineering.utoronto.ca/money for more information.

Working

If you’re an international student, you are allowed to work part time while you study and may be able to incorporate paid work terms into your academic program.

Work as Part of Your Academic Program

Paid work placements are a feature of Co-op programs at U of T Scarborough and the Professional Experience Year (PEY) at the Faculty of Applied Science & Engineering, U of T Mississauga and the Faculty of Arts & Science. Work terms are accessed after the first year of study. Full details are available at uoft.me/uoftscarborough and uoft.me/PEYear.

Part-Time Work

Part-time work on or off campus allows you to earn extra spending money. Not only is it an excellent opportunity to gain practical Canadian work experience, but it will also allow you to expand your social experiences. Part-time work opportunities on campus (through the Work-Study Program, for example) are available to international students at any time during your studies. You may obtain permission to work part time off campus following six months of study. You may also stay in the Greater Toronto Area and work full time during holidays and between academic terms. Full details are available through the International Student Centre at uoft.me/cie.

Working after Graduation

As a graduating international student from a Canadian university, you may be allowed to stay and work in Canada, full time, for up to three years. Details are available at uoft.me/cie.

Finding Work

The Career Centres on our three campuses encourage you to use their extensive resources at any time during your university experience. Here, you’ll find support in preparing for job interviews, researching career paths, finding part-time jobs or a full-time career.

For details, visit uoft.me/careers.

The Career Centres on our three campuses encourage you to use their extensive resources at any time during your university experience.
STUDY WHERE THE WORLD COMES TOGETHER.

THE LESTER B. PEARSON INTERNATIONAL SCHOLARSHIPS.

Covering tuition fees and living expenses for four years, the Lester B. Pearson International Scholarships at the University of Toronto offer you access to an unparalleled experience in undergraduate education. Imagine a top-ranked university located in one of the world’s most welcoming multicultural cities, where students come from over 160 countries and more than 900 municipalities. Imagine enriched learning within a unique community of students, alongside brilliant professors who are shaping the future of their fields. As a Pearson Scholar, you will gain a global perspective on issues that matter most to you.

By 2020, U of T will fund 150 Pearson Scholars on an ongoing basis. Visit pearson.utoronto.ca to learn more.
U of T invites applications from well-qualified students from around the world. Last year we welcomed students from 160 different countries.

How to Apply

Applicants who are interested in applying ONLY to the University of Toronto, who reside outside of Canada and are not currently studying, nor have previously studied, in Canada may apply using the “University of Toronto International application.”

Applicants wishing to be considered for admission to several Ontario universities should apply to the University of Toronto through the Ontario Universities’ Application Centre (OUAC) using the “105” application.

The minimum requirements for admission consideration vary by program. For more on admission requirements, application procedures and deadlines, visit our website at future.utoronto.ca/apply.

DOCUMENT DEADLINES

Document deadlines vary by division. For a complete list of document deadlines visit www.future.utoronto.ca. We encourage you to submit all required documents well in advance of the posted deadlines. Spaces in programs are filled on an ongoing basis and programs may close before the published document deadlines.

Once we receive your application we will send you an email acknowledgement, including full information about the next steps in the application process.

Centre for International Experience

Adapting to a new cultural environment and a new education system may present some unexpected challenges. The Centre for International Experience is ready to help you with a wide range of services and programs. Visit uoft.me/cie.

Student Permit/Visa

If you are not a citizen or permanent resident of Canada, you should apply for a study permit and entry visa (depending on citizenship) as soon as you receive your admission letter. You can obtain applications for these documents from a Canadian embassy or consulate before departing. Visit uoft.me/cie for more information.

Guardianship

If you are an international student under the age of 18, you may be asked by Immigration Canada to find a Canadian citizen to act as a guardian. Your family is responsible for satisfying this requirement.
## Admission Requirements for Common International Education Systems

Detailed information about all educational systems is available at www.future.utoronto.ca/apply
Transfer credit information is available at www.future.utoronto.ca/transfercredit

### British-Patterned Education

#### Arts, Science, Commerce/Management, Kinesiology & Physical Education, and Music
At least five different academic GCSE/IGCSE/Ordinary Level subjects and four different academic subjects at Advanced Subsidiary Level OR three different academic subjects at the Advanced Level (excluding General Paper). All examinations must be conducted by an examination authority located in the UK or an equivalent authority elsewhere. Prerequisites should be presented at Advanced or Advanced Subsidiary Level. Some programs may consider excellent GCSE/IGCSE/Ordinary Level results for fulfilling a prerequisite. English GCSE/IGCSE/O Level/AS Level/A Level is required for all programs. Math AS Level/A Level is required for all programs. Applied Advanced Level subjects are not recommended.

<table>
<thead>
<tr>

</tbody>
</table>

#### Engineering
U.S. Senior Year/Grade 12 at an accredited high school with a high grade point average and high scores on SAT Reasoning/Redesigned SAT (including Essay) OR ACT exams (including Writing Test). Excellent results in senior level courses, including Math, Chemistry and Physics. Competitive applicants are encouraged to have two years of Chemistry and Physics as well as Calculus completed or in progress by their senior year. AP or SAT Subject Tests results in Calculus, Chemistry and Physics are highly recommended, but not required. Applicants who have written AP exams, should present minimum scores of at least 4; SAT Subject tests in Math, Physics or Chemistry should be at least 650. Please note that U of T Engineering does not grant advanced standing credit for AP courses.

English Language

Requirements and Programs

If English is not your first language, you may be required to present proof of your facility in English. U of T accepts a variety of international English Language Tests and qualifications. It is best to submit your proof of English facility as early as possible. For full details, visit uoft.me/elr.

Common Tests / Qualifications

Test of English as a Foreign Language (TOEFL)
Internet-based test: total score of 100 + 22 on writing section.
Paper-based test: total score of 600 + 5.0 on TWE.

International English Language Testing System (IELTS) Academic
Minimum overall band of 6.5 with no band lower than 6.0.

Michigan English Language Assessment Battery (MELAB)
Minimum overall score of 85, with no part score below 80.

International Baccalaureate English
Higher Level or Standard Level English A: Literature or English A: Language and Literature with a minimum score of 4 (predicted or final). English B Higher Level is not acceptable.

GCSE/IGCSE/GCE O Level English
English or English Language or English as a Second Language with minimum grade of ‘B.’

GCE A/AS/AICE Level English
English or English Language with minimum grade of ‘C.’

Academic English Course, School of Continuing Studies, University of Toronto
Academic English Level 60 with grade of ‘B’. Detailed information at uoft.me/academic-english.

University of Toronto – English Language Programs
Academically qualified students who do not meet our English language requirements may be interested in one of our English language programs. These programs, if completed successfully, will allow students to meet the English language facility requirement. They are run on each campus and range in length from six weeks to eight months.

These programs include:
International Foundation Program – uoft.me/intlfp
Academic Culture and English Program (ACE@UTM) – uoft.me/utmace
Academic English (AE@UTSC) – uoft.me/UTSCae
