2026/27 UNDERGRADUATE ADMISSIONS BULLETIN

How to Apply

Join the University of Toronto and become part of a vibrant community. All prospective applicants apply through the Ontario Universities' Application Centre (OUAC). For details on application procedures and deadlines, please visit future.utoronto.ca/applying.

Full-Time Degree Applicants

Full-time studies begin in September only.

Ontario Secondary School Applicants

Apply online using the Undergraduate Application. You will need to provide your first and last name, Ontario Education Number (OEN), and your school name. Your school will send us your marks through the OUAC.

All Other Full-Time Applicants

Apply online using the Undergraduate Application. If you were previously registered or are currently registered at U of T, you can apply online using the Internal Application.

Part-Time Degree Applicants

Part-time degree studies begin in September or May. Apply online using the Part-Time Application. For a complete list of programs that are offered on a part-time basis, refer to the online application. Part-time students can take courses during the day and evening (if available). Students who can attend classes only in the evening should consult their target academic division for guidance on class times.

Non-Degree Applicants

If you wish to enrol in arts and/or science courses but not toward a degree, apply using the Non-Degree Application. Non-degree studies begin in September or May.

Please note that it may not be possible to register in courses that are in high demand. If you are interested in non-degree studies in a professional division (Architecture, Landscape, and Design; Applied Science & Engineering; Kinesiology & Physical Education; Music), contact the division directly.

Deadlines

Application Deadlines

Submitting a complete application as early as possible allows your application to be considered earlier. After the final application deadline has passed, programs that are not full may consider applicants on a rolling basis.

Application dates for full-time studies, part-time studies, and non-degree studies (summer session):

The application deadline for Non-Degree (fall session) is June 2. Application deadlines for some second-entry program areas (Bachelor of Information, Nursing, Medical Radiation Sciences, and Physician Assistant) are available at:

future.utoronto.ca/deadlines

Supplemental Applications

Some programs, colleges and campuses ask students to fill out a supplemental application or profile. You will be notified if you need to fill out a supplemental application or profile, as well as where to submit and when.

uoft.me/supplemental-applications

Document Deadlines

Document deadlines vary by division. We encourage you to submit all required documents well in advance of the posted deadlines. For a complete list of document deadlines, see:

uoft.me/document-deadlines

After Applying

About a week after you submit your application, you will get an email acknowledging that we have received your application. The email will also ask you to activate a set of personal login credentials (UTORid) and then sign into the Join U of T Applicant Portal or the Engineering Applicant Portal. This will unlock the second step of the application process.

Join U of T and the Engineering Applicant Portal are one-stop applicant dashboards that list all of your next steps. It is the first place to go to check the status of your application, and the best place to go if you are not sure what to do next. When you log in, you'll be able to see if you need to provide any additional information and access our online residence application.

Admission Requirements

The minimum requirements for consideration vary by program and admission category. All applicants are required to present a Grade 12 English course for admission consideration. Many programs have additional prerequisites.

All programs have limited spaces and the selection process is competitive. Some programs require a supplementary application. For full details on admission requirements, see:

future.utoronto.ca/requirements

High School Students

Canadian Secondary School

All programs require an Ontario Secondary School Diploma (OSSD), and six Grade 12 U/M subjects, including ENG4U/EAE4U. Many programs have additional prerequisites. Review the Canadian Secondary School Qualifications and Course Equivalents chart on the other side of this bulletin for comparable requirements from other Canadian provinces and territories. The admission selection process includes consideration of the Grade 11 and Grade 12 academic record. Emphasis is placed on Grade 11 results where marks in the required number of Grade 12 courses are not yet available.

International Baccalaureate

Applicants from the International Baccalaureate Program must present the complete IB diploma with English HL or SL. Applicants who are currently in their final year of the IB diploma program are required

to submit predicted grades as part of their application. Complete details, including course prerequisites for programs requiring Calculus and Advanced Functions, can be found in the Canadian Secondary School Qualifications and Course Equivalents chart in this bulletin, as well as at:

uoft.me/IB-Canada

College Transfer Applicants

A strong grade point average in an academic program is required for admission consideration. All prerequisites must be met at the Grade 12 U/M level. Two semesters of an academic subject completed at the college level may be considered as equivalent to a Grade 12 U/M level prerequisite.

Applicants who have completed a two-year academic diploma may receive up to three full credits towards an arts, science, commerce/management program. Applicants holding a three-year academic diploma or a four-year degree may receive up to five credits towards a degree.

uoft.me/universitycollegetransfer

Students interested in applying to the Faculty of Applied Science & Engineering from a college should contact the faculty directly.

University Transfer Applicants

Admission consideration is based on the overall academic record, with an emphasis on the most recent (or highest) level of study completed, and results in prerequisite

subjects. Prerequisites must be completed at the Grade 12 level or at the undergraduate level.

Note that some programs do not consider applications from students who have previously attended a postsecondary institution.

uoft.me/limited-transfer

Applicants who already hold a bachelor's degree from a recognized postsecondary institution can only apply to a different field of study. Individuals who already hold an undergraduate degree in Engineering are not eligible to apply for undergraduate studies at U of T Engineering.

Students who wish to take courses at the University of Toronto for credit toward a degree at another university should contact the target campus/faculty directly. Such students must present a valid Letter of Permission from their home university.

uoft.me/universitycollegetransfer
uoft.me/ENGtransfer

Non-degree Studies

Undergraduate degree holders who wish to take additional undergraduate courses, perhaps in order to qualify for graduate studies, may consider applying for non-degree studies. Please note that it may not be possible to register as a non-degree student in courses that are in high demand.

Transfer Credit

High School

Transfer credit towards arts, science and commerce/management programs is considered for some academic AP and IB subjects. Learn more:

uoft.me/hs-transfer-credit

Post-Secondary

Transfer credit may be granted for undergraduate studies completed at a recognized postsecondary institution. Details about the transfer credit process will be provided after an offer of admission is made. Prospective students should consult the website of their target faculty for more information.

uoft.me/univ-transfer-credit

Pathway Programs

Transitional Year Programme

The Transitional Year Programme (TYP) is a full-time, eight-month access to University program that is intended for adults who do not have the formal qualifications for university admission due to circumstances beyond their control, such as financial, social, personal, political, familial or mental health barriers. The program is available to Canadian citizens, permanent residents, or protected persons.

- **TYP at U of T St. George**
416-978-6832 | typ.info@utoronto.ca
typ.utoronto.ca

Bridging Programs

Bridging programs provide an opportunity for Canadian citizens, permanent residents, and protected persons who lack the published requirements to qualify for admission to a degree program.

- **Millie Rotman Shime Academic Bridging Program**
416-978-4444 | academic.bridging@utoronto.ca
wdw.utoronto.ca/bridging
- **U of T Mississauga Bridging and Refugee Pathways**
905-828-5400 | pathways.utm@utoronto.ca
uoft.me/utmadmissions

College Articulation Agreements

We have specific transfer articulation agreements with some Ontario colleges:

- **Faculty of Arts & Science**
wdw.utoronto.ca/diploma-to-degree
- **U of T Scarborough**
utsc.utoronto.ca/pathways

English Language Pathway Programs

Academically qualified students who do not meet our English language requirements may be interested in our English language programs. Students will meet our English language requirement if these programs are completed successfully. They are offered on each campus and range in length from six weeks to eight months. Such programs include:

- **International Foundation Program**
internationalprograms.utoronto.ca
- **Academic Culture and English Program (ACE@UTM)**
uoft.me/utmace
- **Academic English at U of T Scarborough**
uoft.me/academicenglish

English Language Requirements

Proof of adequate English facility is required from all applicants except for those:

- whose first language (i.e., the language learned at home as a child) is English; or
- who have achieved satisfactory results in at least four years of full-time academic study in an English language school system located in a country where the dominant language is English; or
- whose first language is French and who have achieved satisfactory results in at least four years of full-time academic study in Canada.

For full details about English language requirements, visit uoft.me/elr

For information about English Language Pathway Programs, see the “Pathway Programs” section of this document.

Tests and Qualifications That Provide Acceptable Evidence of English Facility

Academic English Course, School of Continuing Studies, University of Toronto
The minimum requirement is completion of Academic English Level 60 with grade of ‘B’. uoft.me/academic-english-program

Duolingo English Test

The minimum requirement is an overall score of 120 with at least 120 in Production. Requirements for tests completed before July 1, 2024 and additional details are available on our website: uoft.me/elr

GCE A/AS Level English

The minimum requirement is English or English Language with grade of ‘C.’

GCSE/IGCSE/GCE O Level English

The minimum requirement is English or English Language or English as a Second Language with a final grade of ‘B’ (or ‘6’ in reformed qualifications).

International Baccalaureate English

The minimum requirement is Higher Level or Standard Level English A: Literature or English A: Language and Literature with a score of 4 (predicted or final). English B HL with a score of 7 (predicted/final) is also accepted.

International English Language Testing System (IELTS) Academic

The minimum requirement is an overall band of 6.5 with no band lower than 6.0.

Pearson Test of English (PTE) Academic

The minimum requirement is an overall score of 65 with no part below 60.

TOEFL iBT

The minimum requirement is a total score of 89 with 22 in each of Speaking and Writing. Applicants completing a test on January 21, 2026 or later should consult our website for updated score requirements: uoft.me/elr

Other Common English Proficiency Tests/Qualifications

Other English language tests/qualifications are also considered. For a comprehensive list and complete details on our English language proficiency requirements, be sure to visit uoft.me/elr

Scholarships & Financial Aid

The university has comprehensive scholarship and financial aid programs that provide financial support and recognition for outstanding academic achievement at different levels of study. The university, and its colleges and faculties, award 7,700+ admission scholarships that total almost \$36 million each year, along with 6,350 in-course scholarships. Students are automatically considered for most admission awards when they apply to U of T.

University of Toronto Advanced Planning for Students (UTAPS)

UTAPS is the university's largest need-based support program and covers the financial gap between a student's actual education costs and the costs recognized by their provincial/territorial government student financial aid program. In other words, UTAPS covers unmet financial need. Through UTAPS, U of T provides non-repayable grants to students to help cover this financial need gap, or unmet need. Learn more:

uoft.me/utaps

U of T Scholars Program

The University of Toronto Scholars Program recognizes outstanding students. About 700 U of T Scholars Awards will be given to students, each with a value of \$10,000. Applicants are automatically assessed based on their academic performance.

President's Scholars of Excellence

Approximately 150 of the most highly qualified students applying to first year of direct-entry, undergraduate studies will be distinguished as President's Scholars of Excellence.

This distinction includes a \$15,000 entrance scholarship in first year; additional features may be offered by the admitting division. Outstanding students are considered automatically for these scholarships.

National Scholarship Program

The National Scholarship recognizes Canadian secondary school students who demonstrate superior academic performance, original and creative thought, and exceptional achievement in a broad context. They excel in academic pursuits, demonstrate enthusiasm for intellectual exploration and have a strong involvement in the lives of their schools and communities. Each year, approximately fifteen students are named National Scholars and ten are named Arbor Scholars. This scholarship requires a separate application, due in early fall of your final year of secondary school. Find out more and apply here:

future.utoronto.ca/national-scholarship

Lester B. Pearson International Scholarship

While the National Scholarship Program is for Canadian students, international students studying in Canada can be nominated for the

Lester B. Pearson International Scholarship. To become a Pearson Scholar, students must be nominated by their school and apply to undergraduate studies at U of T. Learn more:

future.utoronto.ca/pearson-scholarships

Awards Profile

The Awards Profile is each student's best opportunity to make themselves eligible for a wide range of awards with a single application. The Awards Profile makes it possible for eligible domestic applicants to be considered for admission awards based on financial need, leadership, school involvement, community, extra-curricular activities, and other criteria. You can access the Awards Profile through Join U of T. The deadline to submit is February 1, 2026.

uoft.me/awards-profile

More About Financial Aid & Awards

Applicants who have previously attended a postsecondary institution are not eligible for awards consideration on admission.

U of T's colleges, faculties and divisions also offer scholarships, some of which require a separate application.

For more on these and other admission awards, their application processes, financial aid, or our Award Explorer be sure to visit us online:

future.utoronto.ca/financial-aid
future.utoronto.ca/scholarships
awardexplorer.utoronto.ca

Tuition fees

The cost of attending university varies depending on your program of study and place of residence during the Fall-Winter academic year. All fees are specified in Canadian dollars (CAD). Updated fees for 2026-2027 will be available in the summer of 2026.

Total Fees For 2025-2026

Faculty or Program Area	Canadian Citizens, Permanent Residents		International Students
	Ontario Residents	Residents Outside of Ontario	
Applied Science & Engineering	\$16,383.84	\$19,093.84	\$73,055.84
Architecture, Landscape, and Design (Visual Studies and Architectural Studies)	\$8,088.40	\$9,238.40	\$66,350.40
Arts, Science, Commerce and Management	\$8,094.22 – \$8,911.09	\$9,244.22 – \$10,061.09	\$66,356.22 – \$67,173.09
Kinesiology & Physical Education	\$8,093.40	\$9,243.40	\$51,795.40
Music	\$8,656.40	\$9,806.40	\$51,438.40

Total fees include academic fees, as well as incidental and ancillary fees. Incidental and ancillary fees vary by college and campus. Ancillary fees are associated with course-related activities, or for services that students can choose to access. Incidental fees cover the costs of services and programs that contribute to the student experience and student wellbeing, and include fees for University-operated student services (such as campus Career Centres and Hart House). Find out more about incidental and ancillary fees at viceprovoststudents.utoronto.ca/students/fees

Tuition fees increase in the second year of some programs. A complete tuition fee schedule is available at studentaccount.utoronto.ca/tuition-fees. International fees include UHIP, a compulsory health insurance plan for international students (\$756). Accurate at time of printing. Confirm fee schedules at future.utoronto.ca/fees

Housing & Residence Options

Housing is guaranteed for all new full-time students entering their first year of a postsecondary program for the first time, provided that they have indicated their interest in residence by completing the First Year StarRez application by **March 31**, and receive and accept an offer of admission by **June 1**. Students must respond to all deadlines and meet all deposit requirements in order to maintain their eligibility.

* Prices are for 2025-2026. Costs include meal plan, where mandatory. Please check residence.utoronto.ca in Spring 2026 for updates to residence price ranges for 2026-2027.

† Optional meal plans can be purchased through U of T Food Services: foodservices.utoronto.ca. Additional residence council fees may be required in addition to the above-listed fees at some residences.

Admission Consideration

Admission is competitive and subject to space availability. We seek to admit the best possible students on the basis of academic performance and potential, and will select students for admission based on competitive strength. The "Approximate Grade Requirement" indicated for each admission category is based on the admission average from the previous year. Grade requirements can vary from year to year, depending on the number and quality of applicants. The specified range is intended as a general guideline only. Details about admission requirements pertaining to your educational jurisdiction are available at: [future.utoronto.ca/apply](https://www.utoronto.ca/apply)

U of T Mississauga

Applicants to Theatre & Drama Studies must book an audition, which is weighted equally with your academic average.

uoft.me/utmaudition

Applicants to the Computer Science admission category must complete a Supplemental Application Form.

uoft.me/utmadmissions

U of T Scarborough

Applicants to Management, Management & International Business, Paramedicine, International Development Studies, Music Industry & Technology, and the Double Degree (BBA & HBSc) must complete a Supplemental Application. Learn more: uoft.me/utsc-saf

U of T St. George

Faculty of Arts & Science

Applicants to the Computer Science and Rotman Commerce admission categories must complete a Supplemental Application. Additional high school subjects may be required as prerequisites for specific courses in first year or for entry to specific programs in second year. Learn more: www.artsci.utoronto.ca/future

Faculty of Applied Science & Engineering

All applicants are required to submit an Online Student Profile. The Admissions Committee considers a candidate's overall academic history with emphasis on the prerequisite course average, along with the information provided on the Online Student Profile. Applicants must present grades of 70% or higher (typically higher) in individual prerequisite courses.

John H. Daniels Faculty of Architecture, Landscape, and Design All applicants are required to complete the One Idea Supplementary Application: uoft.me/oneidea. The deadline for the One Idea supplementary application is February 1, 2026. Note: both professions of Architecture and Landscape Architecture require a graduate degree at the master's level.

Faculty of Music

An audition/interview is required for all music programs. The Admissions Committee considers a candidate's musical abilities, background, potential, and other applicable portfolio submissions, in conjunction with their overall academic history, with emphasis on the prerequisite English course mark.

Applicants must submit a Music Questionnaire by January 15 to arrange an audition/interview. The Music Questionnaire will be available on the Join U of T portal once you have applied through the OUAC. We recommend applying to the OUAC by December 1 to ensure you have sufficient time to access and complete the Music Questionnaire. For admissions details and guidelines, please visit uoft.me/undergradmusicadmissions

Faculty of Kinesiology and Physical Education

All applicants must complete an online Statement of Interest form by February 2, 2026. Students planning to take upper-year biology courses in university should take Grade 12 Chemistry. Students who wish to add a minor or major in Psychology or Physics to their BKin degree should take Grade 12 Calculus. Learn more: kinesiology.utoronto.ca

Note: Advanced Placement Examinations and International Baccalaureate credits are also acceptable. Transfer credit information is available at uoft.me/bs-transfer-credit

[†] Math with calculus is required for studies in Engineering. If your secondary school only offers pre-calculus or does not offer math with calculus, please contact the Faculty of Applied Science & Engineering directly at: engineering@utoronto.ca

Calculus is preferred.

Explore Your Options

Mixing Programs

When building an Arts, Science, or Business degree on your chosen campus, you can mix and match Specialist (9-16 credits), Major (6-9 credits), and Minor (4-5 credits) programs to suit your goals. For example, you can pursue a Specialist, or two Majors, or one Major and two Minors. Overall, in your undergraduate degree, you will take at least 20 credits across your chosen subject areas.

Work-Integrated Learning (WIL)

Many programs offer integrated co-op, internships, and/or professional work term options. Learn more:

• U of T Mississauga Co-op Internship Program uoft.me/utmcip

• U of T Scarborough Co-op uoft.me/cooputsc
