TRADITIONAL LAND ACKNOWLEDGEMENT

We wish to acknowledge this land on which the University of Toronto operates. For thousands of years it has been the traditional land of the Huron-Wendat, the Seneca, and most recently, the Mississaugas of the Credit River.

Today, this meeting place is still the home to many Indigenous people from across Turtle Island and we are grateful to have the opportunity to work on this land.

CANADA'S FLAGSHIP UNIVERSITY

Students choose from 700+ programs while tapping into a 600,000-strong alumni network spanning 160+ countries.

Every student enjoys access to worldwide industry partnerships, cutting-edge labs and studios, and research collaborators who will become lifelong friends. An innovation powerhouse that attracts \$1.3 billion in research funding each year, and a caring community that nurtures every newcomer, U of T has something for everyone.

50%

of our first-year students come from households with annual incomes of less than \$50,000

The University of Toronto is committed to enhancing access and equity across all of our campuses. We strive to recruit students who reflect Canada's diversity and can strengthen our community with a breadth of viewpoints and lived experiences.

THE GREATER TORONTO AREA

At The Crossroads of Imagination and Impact

There is no better place for the enterprising student than the University of Toronto: a research and development hotbed that contributes \$15.7 billion a year to Canadian prosperity.

Not only are our faculty members renowned the world over as industry visionaries, our campuses are just steps away from Bay Street's movers and shakers, and a stone's throw from the commercial heartlands of the Golden Horseshoe. Best of all, at Canada's top university—routinely ranked #1 for funding, innovation, and research output—students can collaborate with friends and mentors in any field to build solutions to the world's most pressing challenges.

Anchored by the Toronto Stock Exchange, the world's largest exchange for energy firms, and a financial district that headquarters Canada's five main banks, the GTA is an economic powerhouse that nurtures unmatched talent in everything from cybersecurity to food security, and is acclaimed for its network of 15,000+ technology firms—the famed southern Ontario “digital corridor.”

YOUR CAREER LAUNCHPAD

Major industries in the GTA include: **aerospace, biotechnology, design, healthcare, financial services, fashion, and film.**

60+

Fortune 500 companies are headquartered in Mississauga

9

GTA hospitals are fully affiliated with U of T — Canada's largest healthcare network

3RD

largest design industry in North America

Aerial view of St. George campus and downtown Toronto

The GTA's many neighbourhoods are where the world comes to learn, laugh, build bridges, and celebrate diversity.

Savour subtropical snacks in summertime markets, drink in fall foliage on a woodland hike, and enjoy a holiday show or three in December. We've got maple syrup festivals and indie film festivals, not to mention boardwalks, beaches, and buskerfests, complete with live music for every season and every mood. Home to world-class museums and art galleries, the nation's most influential media personalities, and the Toronto International Film Festival (TIFF)—second only to Cannes in prestige—the GTA is a magnet for colour, flavour, and friendship.

RESEARCH OPPORTUNITIES

Ever wonder what it's like to uncover artifacts that haven't seen daylight in centuries, or observe international trade negotiations? Wonder no more. Our unique Research Opportunity Programs (ROPs), Research Excursion Programs (REPs), International Course Modules (ICMs), Co-op programs, learning abroad networks, field schools, and independent study courses were designed for students just like you.

Get your hands dirty. Get published. Put your skills to work in the world's biodiversity hotspots, or team up with security researchers right here on campus to safeguard democracy on the internet. Explore the steppes of Central Asia in your junior year, then help devise microfluidic tests for emerging viral threats in your senior year. Your degree is yours to customize.

Haliburton Forest and Wildlife Reserve

I've been at SickKids research institute for the past two years working on exploring ion channels implicated in childhood brain cancers. We found an ion channel that's associated with medulloblastoma (the most common malignant childhood brain tumor) and when we remove it, survival increases and the tumour size decreases. Specifically, we think it's associated with cancer stem cells, which give rise to the bulk of the tumor, which could serve as a new cancer therapy target. This was super interesting to me because I came to university wanting to study stem cells (after being sold from a StemCellTalks Toronto event I went to at U of T when I was in high school). Cancer stem cells are something I never learned about in classes so it's been amazing learning about an entirely new field, within an area I've always been interested in.

— Miranda, Faculty of Arts & Science

FROM DAYDREAM TO DREAM JOB

At the University of Toronto—the birthplace of stem cell research, insulin therapy, multi-touch input screens, and seminal ideas in critical media theory—students nurture their ingenuity with the help of 200+ industry mentors and 11 business accelerators and incubators.

Win seed capital, office space, equipment access, and expert guidance with funding applications, prototyping, and IP protection. Our longstanding partnerships with MaRS Innovation and other nonprofit research consortia across the region offer unparalleled networking advantages—and our Career Educators can help you hone your pitch.

DID YOU KNOW?

U of T has an Innovations & Partnerships Office (IPO) dedicated to helping students, research trainees, and other collaborators access industry partnerships, commercialization opportunities, and entrepreneur networks.

START A STARTUP

180+ entrepreneurship courses are offered across our three campuses, attracting nearly 11,000 registrants

11 incubators and accelerators across all three campuses. Each offers mentorship, hands-on guidance, and a built-in professional network to undergraduate and graduate creators and innovators

FUEL YOUR BIG IDEAS

500+

startups were founded by the U of T research groups in the past decade, which have raised a combined \$1 billion in investment

7,000

faculty members and 18,000 graduate students and postdoctoral fellows across multiple disciplines who can help you launch your idea

700+

inventions, 200+ patent applications, and 150+ licenses granted every five years—and rapidly rising

All entrepreneurship resources at U of T are open to students from all three campuses, no matter what program or year you're in: entrepreneurs.utoronto.ca

Our True Blue Fund (\$5M) was created in 2019 to support student entrepreneurship: entrepreneurs.utoronto.ca/truebluefund

GLOBAL LEARNING

Through co-op placements, paid internships, learning abroad options in 160+ institutions, field schools, international course modules, and research opportunity programs, you'll make industry contacts—and lifelong friends—and tackle pressing challenges like climate change, quantum cryptography, financial derivatives, and homelessness.

Study the history of German cinema in Berlin, the rise and fall of Bronze Age powers on the Anatolian plateau, and marine ecosystems in the South Pacific. The University of Toronto is committed to engaging at least 30% of our students with a global experience.

▲ Field courses are a great way to enrich your degree and expand your horizons

You learn so much from being abroad that goes beyond the classroom. It's like throwing yourself into the deep end, and while there is a period where you feel lost, you end up feeling like you have a second home at the end of it. It was the greatest experience of my university career.

—Nitika, U of T Finance and Economics student and participant in the 2017 Waseda University Exchange Program

An Earth Sciences student learns hands-on geology on a field trip to New Zealand

\$1.5M

in bursaries and grants available each year to foster students' outbound learning and overseas research

STUDY ABROAD

4,500+ students take part in a learning abroad opportunity each year

71% of students who studied abroad agreed that their experience abroad had influenced their choice of career path after returning

87% of students reported having more openness to different ways of thinking

Students can now work towards a **Global Scholar** designation by taking a curated set of courses offered by their program or faculty. When those courses are completed, students will receive a certificate and a "Global Scholar" notation on their transcript. Students can also work towards a "**Global Citizen**" designation that will appear on their co-curricular record (CCR) by getting involved in programs and activities that develop three competencies: global perspective and engagement, inclusivity and equity, and community and civic engagement.

Learn more about these unique transcript notations:

POETRY IN MOTION

Whether you're a national all-star or the neighbourhood MVP, your future teammates need you! With men's and women's Varsity Blues teams across 24 sports, and an 11,000-strong intramural community, athletics is a major part of life for our students.

Last year, U of T's teams racked up a dozen intercollegiate championships in baseball, badminton, fencing, figure skating, golf, mountain biking, water polo, and more. But you don't have to be an athlete to join up and join in. No matter your skill level, there's a class for you:

uoft.me/whatyoucando

The Tri-Campus Development League is a great way for students to come out and try out for sports they have a passion for. As someone who is not from this province, it's been great to meet different people with different interests, who share the same passion for sport as me.

—Jessica, third-year Forensic Science student at U of T Mississauga

SPORT & RECREATION

Drop into any of our state-of-the-art facilities to enjoy the largest range of classes, events, and club sports at any Canadian university.

Classes include aquatics, aerial circus silks, ballet, fencing, parkour, squash, kendo, swimming, diving, lifeguarding, strength and conditioning, and more.

uoft.me/sportandrec

INTRAMURALS

3 CAMPUSES 1 UNIVERSITY

Unique in North America, our tri-campus system makes it easy for students to learn, network, and innovate in Canada's economic heartland, just steps from some of the world's most diverse neighbourhoods.

You can apply to one admission category per academic division. Outlined just ahead, our seven first-entry academic divisions are U of T Mississauga, U of T Scarborough, plus five faculties on U of T St. George:

- Faculty of Applied Science & Engineering
- John H. Daniels Faculty of Architecture, Landscape & Design
- Faculty of Arts & Science
- Faculty of Kinesiology & Physical Education
- Faculty of Music

Once you're a registered student, you'll be able to personalize your degree with majors, minors, specialists, and certificates.

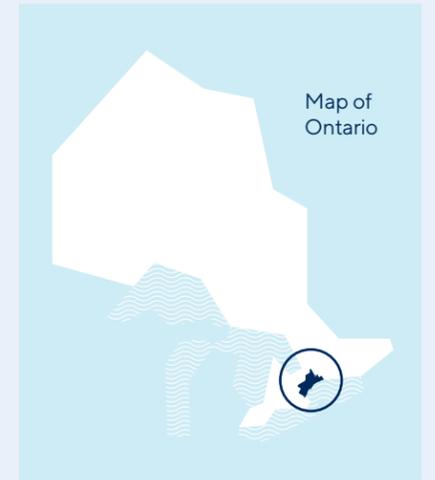

For our complete program listings, check out the bulletin at the back of this book.

Freedom of Xpression, UTSC's annual performing arts showcase, is organized entirely by students

LIVING ON CAMPUS

Our mission at U of T Scarborough is to cultivate the potential in each student. Overlooking lush parklands on the eastern shoreline of Canada's most cosmopolitan city, UTSC's closely knit residence communities are just steps from gleaming, sustainably built facilities and state-of-the-art labs. Toronto's most diverse neighbourhood—"the dining capital of the world," as American economist Tyler Cowen calls it—Scarborough is the perfect home base for crafting a business proposal, policy paper, or novel, while sealing the deal over Hakka noodles, banh mi, and bubble tea.

Residence options at UTSC include townhouses, apartment-style units, and furnished single rooms conveniently located minutes away from transit, grocery stores, and malls, as well as scenic creeks and valleys. Under the guidance of a dedicated staff team, the residence life experience is driven by students, for students, through a Scarborough Campus Residence Council whose members see to it that every resident feels connected, inspired, empowered, and at home.

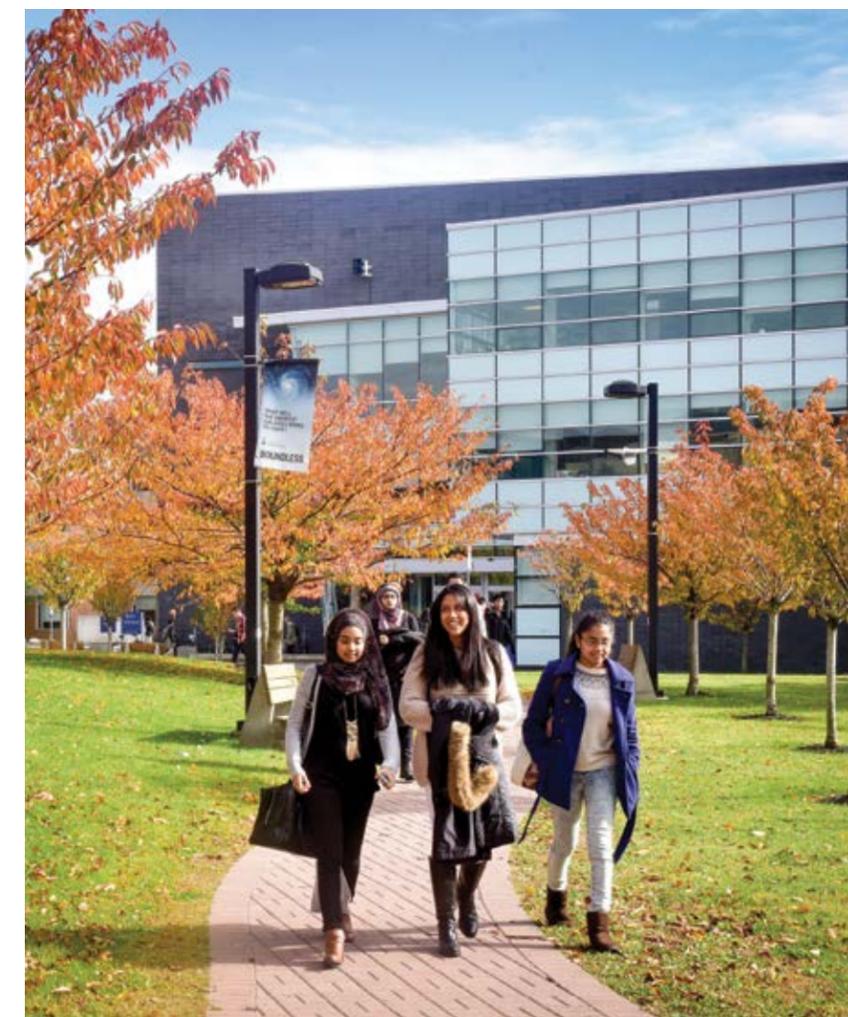

Learn what it's like to live at UTSC, and discover the amenities and meal plans that await you at

utsc.utoronto.ca/residences

I instantly felt that this is the right fit for me. A warm, friendly and encouraging community is what I felt and have loved ever since. I chose a double major in Media Studies and Human Biology because it gives me the balance and different perspectives I need to get the full picture.

—Annie, Media Studies and Human Biology; originally from Aleppo, Syria

Students walk to class outside the Social Sciences Building

APPLICATION PROCESS

APPLY NOW

Join the University of Toronto and become part of a vibrant community. Admission is competitive, so it's best to apply early. Then, add [@utoronto.ca](https://twitter.com/utoronto) to your safe senders list, and keep a close eye on your inbox. About a week or two after you submit your application, we'll send you an acknowledgement email with further instructions. For complete details and deadlines, check out the bulletin at the back of this book, or future.utoronto.ca/apply

1. COMPLETE YOUR APPLICATION

OCT – NOV

OUAC 101 applicants receive PINs from their schools.

JAN 15

Application deadline for most divisions.

NOV 7

OUAC 105 applicants: Recommended application date for early consideration.

JAN 15

Application deadline for most divisions.

2. SUBMIT ANY REQUIRED DOCUMENTS

FEB 1

Deadline for documents, awards profile, and English language tests: uoft.me/elr

MAR 31

Residence application deadline: uoft.me/livehere

FEB 1

Deadline for documents, self-reported grades form, awards profile, and English language tests: uoft.me/elr

MAR 31

Residence application deadline: uoft.me/livehere

3. KEEP AN EYE ON YOUR INBOX!

JAN – MAY

Offers of admission are issued to OUAC 101 applicants.

JAN – MAY

Offers of admission are issued to OUAC 105 applicants.

4. IF YOU GET AN OFFER

JUN 1

OUAC 101 applicants must accept their offers by June 1.

OUAC 105 applicants should check their offer of admission in JOIN for the deadline by which they must accept their offer, and any further steps to take to secure their spot.

Start by choosing your Ontario Universities' Application Centre (OUAC) application type.

OUAC 101. If you are a current full-time Ontario high school student, your school will issue a PIN to you. This will give you access to the "101" online application. Your school will then submit your marks through OUAC.

OUAC 105. If you are not a full-time Ontario high school student, apply using the "105" application.

Activate your JOIN portal and follow the instructions.

Shortly after receiving your OUAC application, we will send you an acknowledgement email with a set of credentials that you can use to activate and access your JOIN portal at join.utoronto.ca

Once you get the credentials we send you, sign into JOIN and complete the rest of your application. Engineering applicants will be redirected to a separate portal after signing into JOIN, called the Engineering Online Student Portal. Submit any required documents by the deadlines listed in your portal.

You can always monitor the status of your application by signing into the JOIN portal.

You'll also be able to see a running list of documents that you've submitted and that we still need from you.

Congratulations!

Keep your grades up—and make sure you satisfy any conditions listed in your offer of admission.

WHAT ARE SUPPLEMENTAL APPLICATIONS?

Supplemental Applications help us get to know you better. They're a chance for you to showcase your unique experiences, strengths, and interests. We're looking for engaged students of any background who will bring leadership, passion, and diverse perspectives.

ADMISSION AREAS THAT REQUIRE SUPPLEMENTAL APPLICATIONS

St. George

FINANCING YOUR EDUCATION

Our newly admitted students are eligible for 5,000+ entrance awards, including about 150 scholarships valued at \$10,000 each through the President's Scholars of Excellence Program—just one of thousands of awards for which incoming students are automatically considered. Think you might be a contender?

Check what's available at awardexplorer.utoronto.ca
Don't forget: some awards require a nomination from your school.

FINANCIAL AID

\$192M

in financial aid and awards
disbursed each year

70%

of funds for enrolled students
have a need-based component

\$43M

available annually in
merit-based awards

Our many entrance awards include the National Scholarships (future.utoronto.ca/national-scholarship) for outstanding Canadian students and the Lester B. Pearson International Scholarships (pearson.utoronto.ca) for exceptional international students, including those completing high school diplomas in Canada. Both cover tuition fees, incidentals, and living costs for four years. National Scholarship candidates must apply by October 22nd of the year before they plan to start their first year of study. Pearson Scholarship candidates must be nominated by their schools by November 30th of the year before they plan to start their first year.

To learn more about financial aid programs, fees, awards, and budgeting tools, visit future.utoronto.ca/finances

Use our handy planning estimator:
planningcalc.utoronto.ca

As Canada's largest university, we welcome 14,000+ new students each fall. It's our hope that you'll be among them. We know that financing a university education is no small undertaking—it may involve a mix of awards, bursaries, grants, part-time work, loans, and family support. It will involve, most importantly, you. Take the reins of your future by starting your research now.

future.utoronto.ca/finances

RESOURCES

Across U of T's first-entry landscape, 5,000+ admission scholarships totalling almost \$23 million are awarded each year, the majority of which are merit-based and awarded automatically—with no need for a separate application. Most awards can be combined with each other, and with financial aid.

5,800

in-course awards are issued each year

3,500

3,500 work-study positions are available each year

The **Ontario Student Assistance Program (OSAP)** is provincially funded, comprises a mix of grants and loans, and assumes that a student's parents and guardians (or spouse, if applicable) will financially contribute to the cost of the degree—so, their income will be taken into account when you apply for OSAP. If your OSAP application is accepted, you'll also become eligible for other potential funding sources, like nonrepayable grants through UTAPS.

- For more on eligibility, and a quick estimate of what OSAP can offer you, visit ontario.ca/osap
- If you're from another Canadian province or territory, or a First Nations community, you can apply for financial aid through your provincial government or your Band.

The **University of Toronto Advanced Planning for Students (UTAPS)** program fills the gap for full-time students who are already receiving the maximum available government financial aid, but whose funding just doesn't cover the complete cost of tuition fees, textbooks, living expenses, and other eligible educational expenses.

To qualify for assistance through UTAPS, you must (1) be a Canadian citizen, Permanent Resident, or Protected Person; (2) be registered in a full-time course load, by OSAP's definitions, in an eligible U of T program, during the Fall or Winter semesters; and (3) already be receiving government student aid from any Canadian province or First Nations band, and still have an unmet financial need. Learn more: uoft.me/UTAPSfunding

- OSAP recipients are automatically assessed for UTAPS. There's no need to submit a separate application.
- Most recently, over \$44 million in UTAPS grants were disbursed to 9,200+ students.

The National Scholarship has been the ultimate opportunity as it has opened countless doors for me.

This award sent a ripple effect of hope and happiness through my entire family, and that is why the National Scholarship is so special. Knowing the impact that this award had on me and my family, I approach every day at U of T as a chance to make a lasting difference within my field of study.

—A recipient of our 2018 National Scholarship, Jamar is currently pursuing a B.Com. at the Faculty of Arts & Science (Rotman Commerce), specializing in Finance & Economics

Check our complete menu of award possibilities at awardexplorer.utoronto.ca

Students in front of Sidney Smith Hall

FREQUENTLY ASKED QUESTIONS

I need to take a course in summer school. Will this put me at a disadvantage when I apply?

The University of Toronto does not discriminate between courses taken in a day school and those taken in summer school, night school, or accredited online programs—all of these are considered equivalent so long as they are taken through a school that is formally approved by your province's Ministry of Education.

Students applying to the Faculty of Applied Science & Engineering may be asked to provide reasoning for taking a course outside of their normal day school if the course is available in their day school.

I am a Canadian citizen who is completing high school in another country. Which tuition rates am I eligible for and should I plan for?

Canadian citizens are eligible for domestic tuition rates regardless of where they are residing at the time they apply. Do keep in mind, however, that admission consideration is always based on the local system (secondary school curriculum) that the applicant is completing. For details on admission requirements, including common international curriculums, visit:

future.utoronto.ca/apply/requirements

FREQUENTLY ASKED QUESTIONS

Are applicants required to submit personal essays, reference letters, or portfolios?

If your program requires supplemental materials, this will be noted in your JOIN portal at join.utoronto.ca (or in your Engineering Online Student Portal). While some programs require supplemental applications or profiles—see p. 51—most of our programs do not.

Please note that essays and letters of reference will not be considered unless we specifically request them. Should supplemental materials be required for one of your target programs, you'll be notified after you've submitted your application.

What are your admission requirements?

- For minimal requirements from all secondary school systems, please visit uoft.me/reqs and browse to your home country. For a searchable index of our 700+ first-entry programs and their specific prerequisites, visit future.utoronto.ca/undergraduate-programs
- For complete details on Engineering requirements, visit discover.engineering.utoronto.ca
- Are you completing the International Baccalaureate curriculum? Visit uoft.me/IBdiploma
- For full details on our English language requirements, see uoft.me/elr. Qualified students who don't meet these requirements can explore one of our English language transition programs: uoft.me/eltp

Can international students live in residence?

On all three of our campuses, residence is guaranteed for new full-time students entering their first year of a postsecondary program for the first time, provided that they indicate their interest in residence by completing the First Year StarRez application by **March 31**, and receive and accept an offer of admission by **June 1**.

Students must respond to all deadlines and meet all deposit requirements to maintain their eligibility. Learn more at residence.utoronto.ca

Are there scholarships and financial aid programs for international students?

If you're an international applicant, check with your home country's ministry of education and student financial aid programs to see if you qualify for assistance. All applicants to the University of Toronto, including international applicants, are automatically considered for merit-based entrance scholarships. Learn more at future.utoronto.ca/finances/scholarships

If you're applying to an Engineering program, check discover.engineering.utoronto.ca/money

From my first day on campus to now, U of T has always felt like home. Even with 85,000+ students between the three campuses, the sense of community within the colleges and faculties is astounding.

I was not expecting to have such a large support system and so many resources to help me make the adjustment to university life. From the Kinesiology professors, to learning strategists and the in-house academic advisor, U of T has created an environment in which I can thrive and create my own unique identity. U of T offers a great community and learning space that allows students to grow.

—Sephora, student leader and athlete, Faculty of Kinesiology & Education

Orientation week at UTSC

ADMISSIONS CHECKLIST

Accept your offer—and keep your grades up. Find instructions on how to accept your offer of admission on the JOIN portal.

Pay any required admission deposit that may be specified in your offer of admission. For instructions on how to pay your deposit, go to your JOIN portal.

Maintain your residence guarantee by completing your first-year residence application on StarRez before March 31. Your residence office will contact you with your residence placement and deposit payment instructions.

Check your email regularly during the summer. Your Registrar and residence will send you essential next steps by email. Starting in July, you'll also be prompted to log into ACORN for your course enrolment start time. At that point, you can begin enrolling in courses. Note that first-year Engineering students do not choose courses and will be provided, instead, with a readymade schedule.

Your first tuition fee installment will be due in August. Each student will receive an invoice during the summer, tailored to their program. If you'll be living in residence, check your email for updates from your Dean of Residence. And learn all about orientation week, sometimes known as Frosh Week, at hello.utoronto.ca

future.utoronto.ca/visit

HOW TO APPLY

All prospective applicants apply through the Ontario Universities' Application Centre (OUAC). For details on application procedures and deadlines, please visit: future.utoronto.ca/apply/applying

We encourage you to apply well in advance of the published deadlines. Admission is competitive and spaces fill quickly.

Full-Time Degree Applicants

Full-time studies begin in September only.

Ontario Secondary School Applicants

If you are a current full-time Ontario secondary school student, your school will issue a PIN to grant you access to the OUAC "101" online application. Your school will also send us your marks through the OUAC.

All Other Applicants

Apply online using the "105" application. If you were previously registered or are currently registered at U of T, apply online using the "Internal" application. For details, visit future.utoronto.ca/apply/applying

We strongly encourage you to apply by November 7, 2020.

Part-Time Degree Applicants

Part-time degree studies begin in September or May only. Apply online using the Part-Time Degree application, which is available at: future.utoronto.ca/apply/applying

For a complete list of programs that are offered on a part-time basis, refer to the online application. Part-time students can take courses during the day and evening (if available). Students who can attend classes only in the evening should consult their target academic division for guidance on class times.

Non-Degree Applicants

Non-degree studies begin in September or May only. If you wish to enrol in arts and/or science courses but not toward a degree, apply using the Non-Degree application at: future.utoronto.ca/apply/applying

Please note that it may not be possible to register in courses that are in high demand.

If you are interested in non-degree studies in a professional division (Architecture, Landscape, and Design; Applied Science & Engineering; Kinesiology & Physical Education; Music), contact the division directly.

APPLICATION DEADLINES

Submitting a complete application as early as possible allows your application to be considered for a wider range of admission opportunities –and, in many cases, permits earlier decisions.

APPLICANT TYPE	PROGRAM AREA	RECOMMENDED DEADLINE	APPLICATION DEADLINE
OUAC 101 (Ontario high school students)	Applied Science & Engineering; Kinesiology & Physical Education; Music; Architectural Studies and Visual Studies; International Foundation Programs; U of T St. George (Arts, Science, Commerce); U of T Mississauga; U of T Scarborough		January 15
OUAC 105, Internal (all other applicants)	Applied Science & Engineering; Kinesiology & Physical Education; Music; Architectural Studies and Visual Studies; International Foundation Programs; U of T St. George (Arts, Science, Commerce); U of T Mississauga; U of T Scarborough	November 7	January 15
Please note that our Bachelor of Information, Nursing, Medical Radiation Sciences, and Physician Assistant programs have admission prerequisites at the university level.	Bachelor of Information	November 7	April 30
	Nursing	November 7	January 15
	Physician Assistant	November 7	January 18
	Medical Radiation Sciences	November 7	February 1
Part Time: Summer Session	U of T St. George (Arts, Science, Commerce); U of T Scarborough	November 7	January 15
Part Time: Fall/Winter Session	Applied Science & Engineering	November 7	January 15
	U of T St. George (Arts, Science, Commerce); U of T Mississauga; U of T Scarborough	November 7	January 15
Non-Degree: Summer Session	U of T St. George (Arts, Science, Commerce); U of T Mississauga; U of T Scarborough	November 7	January 15
Non-Degree: Fall/Winter Session	U of T St. George (Arts, Science, Commerce); U of T Mississauga; U of T Scarborough	November 7	June 2

DOCUMENT DEADLINES

Document deadlines vary by division. We encourage you to submit all required documents well in advance of the posted deadlines. Spaces in programs are filled on an ongoing basis and programs may close before the published document deadlines. For a complete list of document deadlines, see: future.utoronto.ca

Once we receive your application, we will send you an email acknowledgement, including full details on next steps in the application process.

ADMISSION REQUIREMENTS

Applicants who have attained a high level of academic achievement and who completely satisfy prerequisites will be considered for admission. The minimum requirements for consideration vary by program and admission category. You must present all requirements, including all prerequisite courses, to be considered.

All programs have limited spaces and the selection process is competitive. Some programs require a supplementary application. For full details on admission requirements, see: future.utoronto.ca/apply/requirements

Canadian Secondary School

Refer to the *Canadian Secondary School Qualifications and Course Equivalents* chart in this bulletin for details on minimum admission requirements for Canadian secondary school applicants. Your Secondary School and Diploma must be recognized by the Provincial Ministry of Education. Transfer credit towards arts, science and commerce/management programs is considered for some academic AP and IB subjects. Learn more: uoft.me/transferral

International Baccalaureate

The complete Diploma, including English HL or SL, is required. Math Studies is not acceptable for any program with a Math prerequisite. Complete details, including course prerequisites for programs requiring Calculus and Advanced Functions can be found on the reverse of this bulletin under *Canadian Secondary School Requirements and Course Equivalents*, as well as at: uoft.me/IBDiploma

Transfer credit toward arts, science, and commerce/management programs is considered for some IB Higher Level Subjects with a grade of at least 5. Learn more: uoft.me/transferral

Ontario Colleges of Applied Arts and Technology (CAAT) / Institutes of Technology and Advanced Learning

Excellent overall grade point average in an academic program is required for admission consideration. All prerequisites must be met at the Grade 12 U/M level and all supplementary or profile information (if required) must be presented. Two full CAAT semesters of an academic subject may be considered as equivalent to a Grade 12 U/M level prerequisite.

Applicants who have completed a two-year academic diploma may receive up to three full credits towards an arts, science, commerce/management program. Applicants holding a three-year academic diploma or a four-year degree may receive up to five credits towards a degree. Admission selection is competitive.

We also have specific transfer articulation agreements with some Ontario colleges:

- Faculty of Arts & Science diplomatodegree@utoronto.ca
- U of T Scarborough utsc.utoronto.ca/pathways

UNIVERSITY TRANSFER APPLICANTS

Applicants interested in transferring from recognized degree-granting postsecondary institutions, along with current University of Toronto students across all three campuses, must meet the minimum admission requirements for their program. Find requirements for your educational jurisdiction at future.utoronto.ca

Applicants are required to provide transcripts for all secondary and postsecondary level study completed. Admission consideration is based on the overall academic record, with an emphasis on the most recent (or highest) level of study completed, and results in prerequisite subjects.

Applicants who have completed studies beyond the minimum requirements at a recognized postsecondary institution may be granted transfer credits if admitted to a first-entry bachelor's degree program. Transfer credits will be assessed after admission, and after the Transfer Credit Assessment application, if required, has been completed. Details will be provided after an offer of admission is made. Interviews may be required.

Some programs do not consider applications from students who have previously attended other postsecondary institutions. Please visit future.utoronto.ca for details.

Applicants who already hold a bachelor's degree from another recognized postsecondary institution can only apply to a different field of study. For instance, students who have completed a degree in, or have majored in, economics, management, commerce or business, cannot complete a Bachelor of Commerce or Bachelor of Business Administration at U of T. If admitted to a different program, these applicants will be granted a maximum of one year of transfer credits (five full credit courses). Applicants who already hold an undergraduate degree in Engineering are not eligible to apply for undergraduate studies at U of T Engineering.

Undergraduate degree holders who wish to take additional undergraduate courses, perhaps in order to qualify for graduate studies, may consider applying for Non-degree studies. Please note that it may not be possible to register as a Non-degree student in courses that are in high demand.

Learn more: future.utoronto.ca/apply/transfer-credit-information

ENGLISH LANGUAGE REQUIREMENTS

Proof of adequate English facility is required from all applicants except for those:

- whose first language (i.e., the language learned at home as a child) is English; or
- who have achieved satisfactory academic progress in at least four years of full-time study in an English language school system located in a country where the dominant language is English; or
- whose first language is French and who have achieved satisfactory academic progress in at least four years of full-time study in Canada.

Common English Proficiency Tests/Qualifications

Please note that other English Language Tests/Qualifications are also considered. For a comprehensive list and complete details on our English language proficiency requirements, be sure to visit uoft.me/elr

Test of English as a Foreign Language (TOEFL) Internet-based test: The minimum requirement is a total score of 100 with 22 on the Writing section.

International English Language Testing System (IELTS) Academic: The minimum requirement is an overall band of 6.5 with no band lower than 6.0.

International Baccalaureate English:

The minimum requirement is Higher Level or Standard Level English A: Literature or English A: Language and Literature with a score of 4 (predicted or final). English B Higher Level is not acceptable.

English Language Diagnosis and Assessment/Certificate of Proficiency in English (ELDA/COPE):

The minimum requirement is a total score of 86, with 32 in Writing and 22 in each of Reading and Listening.

GCSE/IGCSE/GCE O Level English:

The minimum requirement is English or English Language or English as a Second Language with a final grade of 'B' (or 'B' in reformed qualifications).

GCE A/AS/AICE Level English:

The minimum requirement is English or English Language with minimum grade of 'C.'

Academic English Course, School of Continuing Studies, University of Toronto:

The minimum requirement is completion of Academic English Level 60 with grade of 'B'. Learn more: english.learn.utoronto.ca

Academically qualified students who do not meet our English language requirements may be interested in one of our English language programs. These programs, if completed successfully, will allow students to meet our English language requirement. They are offered on each campus and range in length from six weeks to eight months. Such programs include:

- **International Foundation Program**
uoft.me/intlfp
- **Academic Culture and English Program (ACE@UTM)**
uoft.me/utmace
- **Academic English (AE@UTSC)**
uoft.me/utscae

SCHOLARSHIPS & FINANCIAL AID

The University has comprehensive scholarship and financial aid programs that provide financial support and recognition for outstanding academic achievement at different levels of study. The University, and its colleges and faculties, award 5,000+ admission scholarships that total almost \$23 million each year, along with 5,800 in-course scholarships. The University's Policy on Student Financial Support states that no student admitted to a program at the University of Toronto will be unable to enrol or complete the program because they do not have sufficient funds. This commitment to students who are Canadian Citizens, Permanent Residents or Protected Persons means that the University will supplement the funding provided by government sources. This financial assurance is called UTAPS, or University of Toronto Advanced Planning for Students. Learn more: uoft.me/faa

U of T Scholars Program

The University of Toronto Scholar Program recognizes outstanding students. In 2020, we offered approximately 1,000 admission awards to incoming first-year students, each valued at \$7,500. All applicants are assessed automatically for these scholarships based on their academic performance.

President's Scholars of Excellence

Approximately 150 of the most highly qualified students applying to first year of direct-entry, undergraduate studies will be distinguished as President's Scholars of Excellence.

This distinction includes a \$10,000 entrance scholarship in first year; guaranteed access to part-time, on-campus employment during second year; and guaranteed access to an international learning opportunity during the student's undergraduate experience. Outstanding students are considered automatically for these scholarships.

National Scholarship Program

The National Scholarship recognizes Canadian secondary school students who demonstrate superior academic performance, original and creative thought, and exceptional achievement in a broad context. They excel in academic pursuits, demonstrate enthusiasm for intellectual exploration and have a strong involvement in the lives of their schools and communities. Each year approximately ten students are named National Scholars and ten are named Arbor Scholars. This scholarship requires a separate application, due in the fall of your final year of secondary school. Find out more and apply here: future.utoronto.ca/national-scholarship

Lester B. Pearson International Scholarship

While the National Scholarship Program is for Canadian students, international students studying in Canada can be nominated for the Lester B. Pearson International Scholarship. Learn more at pearson.utoronto.ca

Other Awards

Awards which recognize factors such as financial need, outstanding leadership, community involvement or excellence in specific disciplines and pursuits are also available. To maximize your eligibility for a wide range of awards, complete the Awards Profile in your JOIN U of T applicant portal as comprehensively as you can.

Applicants who have previously attended a postsecondary institution are not eligible for awards consideration on admission.

U of T's colleges, faculties and divisions also offer scholarships, some of which require a separate application.

For more on these and other admission awards, their application processes, or financial aid, be sure to visit us online: future.utoronto.ca/finances

TUITION FEES 2020-21

The cost of attending university varies depending on your program of study and place of residence during the Fall-Winter academic year. Academic and incidental fees do not include the cost of books. All fees are specified in Canadian dollars (CAD). For currency conversions, see bankofcanada.ca

FACULTY OR PROGRAM AREA	ACADEMIC FEES		INCIDENTAL AND ANCILLARY FEES	TOTAL FEES		ARTS & SCIENCE INCIDENTAL AND ANCILLARY FEES	
	Domestic	International		Domestic	International	College / Campus	Fee
Applied Science & Engineering	\$14,180	\$60,440	\$1,689.80	\$15,869.80	\$62,849.80	Innis	\$1,621.30

Tuition fees increase in the second year of some programs. A complete tuition fee schedule is available at fees.utoronto.ca
International fees include UHIP, a compulsory health insurance plan for international students (\$720).

HOUSING & RESIDENCE 2021-22

Residence is guaranteed for all new full-time students entering their first year of university in an undergraduate program for the first time, provided that they have indicated their interest in residence by completing the First Year StarRez application by **March 31**, and receive and accept an offer of admission by **June 1**. Students must respond to all deadlines and meet all deposit requirements in order to maintain their eligibility. Each of our three campuses has a student housing office where you can learn more about living on- and off-campus.

PROGRAMS OF STUDY: ARTS, SCIENCE & BUSINESS

ADMISSION CONSIDERATION

All arts, science & business programs require an Ontario Secondary School Diploma (OSSD, or equivalent) and six Grade 12 U/M subjects, including ENG4U and any other prerequisites. Please review the *Canadian Secondary School Qualification and Course Equivalents* chart in the lower-right corner for comparable requirements from other Canadian provinces and territories. The admission selection process includes consideration of the Grade 11 and Grade 12 academic record. Emphasis is placed on Grade 11 results where marks in the required number of Grade 12 courses are not yet available.

Admission is competitive and subject to space availability. The University of Toronto reserves the right to give preference to students whose marks are the result of a single attempt at each course. The "Approximate Grade Requirement" specified for each admission category indicates the admission average for that program in the previous academic year. This mark range varies each year, depending on the number and quality of applicants. It is not a "cut-off point" or enrolment limit. It is a general guideline only.

FACULTY OF KINESIOLOGY & PHYSICAL EDUCATION (BKIN)

The undergraduate program is accredited in Kinesiology and in Physical Education Teacher Preparation. Students planning to take upper-year biology courses in university should take Grade 12 Chemistry. Students who wish to add a minor or major in Psychology or Physics to their BKin degree should take Grade 12 Calculus. **All applicants must complete an online Statement of Interest form by February 1, 2021.** Learn more at kinesiology.utoronto.ca.
