TRADITIONAL LAND ACKNOWLEDGEMENT

We wish to acknowledge this land on which the University of Toronto operates. For thousands of years it has been the traditional land of the Huron-Wendat, the Seneca, and most recently, the Mississaugas of the Credit River.

Today, this meeting place is still the home to many Indigenous people from across Turtle Island and we are grateful to have the opportunity to work on this land.
Students choose from 700+ programs while tapping into a 638,000-strong alumni network spanning 170+ countries. Every student enjoys access to worldwide industry partnerships, cutting-edge labs and studios, and research collaborators who will become lifelong friends. An innovation powerhouse that attracts $1.3 billion in research funding each year, and a caring community that nurtures every newcomer, U of T has something for everyone.

**CANADA’S FLAGSHIP UNIVERSITY**

The University of Toronto is committed to enhancing access and equity across all of our campuses. We strive to recruit students who reflect Canada’s diversity and can strengthen our community with a breadth of viewpoints and lived experiences.
THE GREATER TORONTO AREA
At the Crossroads of Imagination and Impact

There is no better place for the enterprising student than the University of Toronto: a research and development hotbed that contributes $15.7 billion a year to Canadian prosperity.

Not only are our faculty members renowned the world over as industry visionaries, our campuses are just steps away from Bay Street’s movers and shakers, and a stone’s throw from the commercial heartlands of the Golden Horseshoe. Best of all, at Canada’s top university—routinely ranked #1 for funding, innovation, and research output—students can collaborate with friends and mentors in any field to build solutions to the world’s most pressing challenges.

Anchored by the Toronto Stock Exchange, the world’s largest exchange for energy firms, and a financial district that headquarters Canada’s five main banks, the GTA is an economic powerhouse that nurtures unmatched talent in everything from cybersecurity to food security, and is acclaimed for its network of 15,000+ technology firms—the famed southern Ontario “digital corridor.”

YOUR CAREER LAUNCHPAD

Major industries in the GTA include: aerospace, biotechnology, design, healthcare, financial services, fashion, and film.

75+
Fortune 500 companies are headquartered in Mississauga

9
GTA hospitals are fully affiliated with U of T — Canada’s largest healthcare network

#2
in North America in the Global Cities of the Future ranking
The GTA’s many neighbourhoods are where the world comes
to learn, laugh, build bridges, and celebrate diversity.

Savour subtropical snacks in summertime markets, drink in fall foliage on a woodland hike, and
enjoy a holiday show or three in December. We’ve got maple syrup festivals and indie film festivals,
not to mention boardwalks, beaches, and buskerfests, complete with live music for every season and
every mood. Home to world-class museums and art galleries, the nation’s most influential media
personalities, and the Toronto International Film Festival (TIFF)—the GTA is a magnet for colour,
flavour, and friendship.

**SPRING**

- **Average temperature:** 8°C
- Things to do: Toronto Comic Arts Festival, Cherry Blossoms at High Park, Cherry Blossoms at Kariya Park, Doors Open Ontario, Canadian Music Week, Carassauga

**SUMMER**

- Things to do: Luminato, CNE, FanExpo, Taste of the Danforth, Pride Toronto, Caribbean Carnival, Toronto Jazz Festival, Scarborough Night Market, Guild Festival Theatre, Bread & Honey Festival, NXNE

**FALL**

- **Average temperature:** 10°C
- Things to do: TIFF, Word on the Street, Nuit Blanche, Toronto Waterfront Marathon, One of a Kind Show, imagineNATIVE Film + Media Arts Festival, Canada Diwali RazzMatazz

**WINTER**

- **Average temperature:** -4°C
- Things to do: Winterlicious, free outdoor ice skating across the GTA, Light Up The Square, Winter Station at Woodbine Beach, Design TO Festival

**BE ENTERTAINED**

- **7** major league sports teams
- **90+** performing arts theatres
- **500+** live music venues

**PARKLIFE**

- **300** acres of parkland surround the Scarborough campus
- **225** acres of greenbelt land surround the Mississauga campus

**HOME TO ALL**

- **180+** languages and dialects spoken
- **8,000+** dining establishments
ANY INDUSTRY, ANYWHERE

13,000+ employers actively recruit from U of T’s student body each year

15,000 square feet of available space at ONRamp, our co-working and event space dedicated for the curious and the innovative.

18,000+ students have taken courses with a community engagement component in the past decade.

8,000+ one-to-one appointments with in-house career educators each year, where students can hone their interview skills and have their grad school applications and resumés critiqued.

University of Toronto alumni can be found working and innovating at multinational firms and organizations that are household names, including: Google, NVIDIA, TD Securities, the Toronto Blue Jays, the Royal Ontario Museum, Qualcomm, Microsoft, BMW, and Amnesty International.

TAKING THE LEAD

25% of our alumni have founded a company

20% of our alumni sit on nonprofit boards

See what U of T alumni in every field are doing: uoft.me/careernavigator
RESEARCH OPPORTUNITIES

Ever wonder what it’s like to uncover artifacts that haven’t seen daylight in centuries, or observe international trade negotiations? Wonder no more. Our unique Research Opportunity Programs (ROPs), Research Excursion Programs (REPs), International Course Modules (ICMs), Co-op programs, learning abroad networks, field schools, and independent study courses were designed for students just like you.

Get your hands dirty. Get published. Put your skills to work in the world’s biodiversity hotspots, or team up with security researchers right here on campus to safeguard democracy on the internet. Explore the steppes of Central Asia in your junior year, then help devise microfluidic tests for emerging viral threats in your senior year. Your degree is yours to customize.

research.utoronto.ca

I’ve been at SickKids research institute for the past two years working on exploring ion channels implicated in childhood brain cancers. We found an ion channel that’s associated with medulloblastoma (the most common malignant childhood brain tumor) and when we remove it, survival increases and the tumour size decreases. Specifically, we think it’s associated with cancer stem cells, which give rise to the bulk of the tumor, which could serve as a new cancer therapy target. This was super interesting to me because I came to university wanting to study stem cells (after being sold from a StemCellTalks Toronto event I went to at U of T when I was in high school). Cancer stem cells are something I never learned about in classes so it’s been amazing learning about an entirely new field, within an area I’ve always been interested in.

— Miranda, Faculty of Arts & Science
FROM DAYDREAM TO DREAM JOB

At the University of Toronto—the birthplace of insulin, the first electronic pacemaker, seminal ideas in critical media theory, and multi-touch input screens—students nurture their ingenuity with the help of 200+ industry mentors and 11 business accelerators and incubators.

Win seed capital, office space, equipment access, and expert guidance with funding applications, prototyping, and IP protection. Our longstanding partnerships with MaRS Discovery District and other nonprofit research consortia across the region offer unparalleled networking advantages—and our Career Educators can help you hone your pitch.

DID YOU KNOW?

U of T has an Innovations & Partnerships Office (IPO) dedicated to helping students, research trainees, and other collaborators access industry partnerships, commercialization opportunities, and entrepreneur networks.

START A STARTUP

180+ entrepreneurship courses are offered across our three campuses, attracting nearly 11,000 registrants

11 incubators and accelerators across all three campuses. Each offers mentorship, hands-on guidance, and a built-in professional network to undergraduate and graduate creators and innovators

FUEL YOUR BIG IDEAS

500+ startups were founded by the U of T research groups in the past decade, which have raised a combined $1 billion in investment

TOP 10 in University-managed incubators globally—supporting student entrepreneurs, alumni-led startups, and researchers

700+ inventions, 200+ patent applications, and 150+ licenses granted every five years—and rapidly rising

U of T’s True Blue Fund was created to support our emerging entrepreneurs and double their impact: uoft.me/true-blue-fund

All entrepreneurship resources at U of T are open to students from all three campuses, no matter what program or year you’re in: entrepreneurs.utoronto.ca
GLOBAL LEARNING

Through co-op placements, paid internships, learning abroad options in 160+ institutions, field schools, international course modules, and research opportunity programs, you’ll make industry contacts—and lifelong friends—and tackle pressing challenges like climate change, quantum cryptography, financial derivatives, and homelessness.

Study the history of German cinema in Berlin, the rise and fall of Bronze Age powers on the Anatolian plateau, and marine ecosystems in the South Pacific. The University of Toronto is committed to engaging at least 30% of our students with a global experience.

You learn so much from being abroad that goes beyond the classroom. It’s like throwing yourself into the deep end, and while there is a period where you feel lost, you end up feeling like you have a second home at the end of it. It was the greatest experience of my university career.

— Nitika, U of T Finance and Economics graduate and participant in the 2017 Waseda University Exchange Program

Field courses are a great way to enrich your degree and expand your horizons.

STUDY ABROAD

4,500+ students take part in a learning abroad opportunity each year

71% of students who studied abroad agreed that their experience abroad had influenced their choice of career path after returning

$1.5M in bursaries and grants available each year to foster students’ outbound learning and overseas research

WE’RE HERE FOR YOU

Not all learning takes place in the classroom, and not everyone learns in the same way. Finding the best way to balance school, work, home, and health can be daunting! We get that life is complicated, and we’re here to help.

Meet with a Learning Strategist, an International Transition Advisor, a Campus Chaplain, an Elder-in-Residence at our First Nations House, or a nurse, doctor, or counsellor at Health & Wellness. Connect with our Sexual & Gender Diversity Office, our Community Safety Office, or our Family Care Office.

uoft.me/student-support

U of T’s Sexual & Gender Diversity Office is the oldest (20+ years) of its kind at any postsecondary institution in Canada. Our annual Queer Orientation is a huge draw for many students and our campuses are home to 20+ student groups for queer and trans undergraduate students. U of T’s Health & Wellness clinics have a Trans Healthcare Team, whose services are open to students from all three campuses.

uoft.me/queerorientation

U of T provides a wide range of supports to Indigenous students.

Meet with Elders and traditional teachers right here on campus. Work with an Indigenous learning strategist and take part in a wide range of cultural events to sharpen your study techniques, enrich your journey, and grow your leadership skills. The University has total endowments of about $11M specifically devoted to Indigenous students. Each year, around $790,000 in dedicated funding is disbursed among approximately 225+ Indigenous students.

Learn more at:
indigenous.utoronto.ca
indigenous.future.utoronto.ca

First Nations, Métis, and Inuit applicants who are interested in Engineering can also contact the Engineering team at:
indigenous@engineering.utoronto.ca

Hart House is a centre for experiential education outside the classroom, where students from all three of our campuses find welcome and unique ways to connect with each other and the broader world through engagement with the arts, dialogue, and wellness. From peer groups for study and social justice-based community talks to art exhibitions, theatre workshops, and classes to strengthen the body and spirit, Hart House offers something for everyone, something for you.

harthouse.ca

WE’VE GOT YOUR BACK

1,390 virtual Study Hubs run online last year with 6,780 participants
89 Health & Wellness peer support sessions offered
17,000+ virtual appointments with accessibility advisors

There are 80+ alumni and peer mentor programs across our three campuses, including groups for mature students, Black, Indigenous, Latin American, and Southeast Asian students, first generation students, and students with family responsibilities.

uoft.me/accessinclusion
Whether you’re a national all-star or the neighbourhood MVP, your future teammates need you! With men’s and women’s Varsity Blues teams across 25 sports, and an 11,000-strong intramural community, athletics is a major part of life for our students.

Last year, U of T’s teams racked up a dozen intercollegiate championships in baseball, badminton, fencing, figure skating, golf, mountain biking, water polo, and more. But you don’t have to be an athlete to join up and join in. No matter your skill level, there’s a class for you:

uoft.me/whatyoucando

The Tri-Campus Development League is a great way for students to come out and try out for sports they have a passion for. As someone who is not from this province, it’s been great to meet different people with different interests, who share the same passion for sport as me.

— Jessica, third-year Forensic Science student at U of T Mississauga

SPORT & RECREATION
Drop into any of our state-of-the-art facilities to enjoy the largest range of classes, events, and club sports at any Canadian university.
Classes include aquatics, ballet, fencing, parkour, squash, kendo, swimming, diving, lifeguarding, strength and conditioning, and more.

uoft.me/sportandrec

INTRAMURALS
Intramural sports are open to all students and offer varying levels of competition through leagues, tournaments, and special events. Make friends while making game-winning shots!

uoftintramurals.ca

TRI-CAMPUS DEVELOPMENT LEAGUE
The Tri-Campus Development League is open to all students and represents the highest level of sport competition outside of the Varsity program. Participants from three campuses develop sport skills with the help of coaches and play in competitive games with registered officials.

uoft.me/tricampus-dleague

VARSITY BLUES
The Varsity Blues program provides competitive sport opportunities at the provincial and national levels for outstanding student-athletes. The program is the largest intercollegiate program in Canada, with 42 teams across 25 sports, and 904 student athletes across all three campuses.

varsityblues.ca
Unique in North America, our tri-campus system makes it easy for students to learn, network, and innovate in Canada’s economic heartland, just steps from some of the world’s most diverse neighbourhoods.

You can apply to one admission category per academic division. Outlined just ahead, our seven first-entry academic divisions are U of T Mississauga, U of T Scarborough, plus five faculties at U of T St. George:

- Faculty of Applied Science & Engineering
- John H. Daniels Faculty of Architecture, Landscape, and Design
- Faculty of Arts & Science
- Faculty of Kinesiology & Physical Education
- Faculty of Music

Once you’re a registered student, you’ll be able to personalize your degree with majors, minors, specialists, and certificates. For our complete program listings, check out our Undergraduate Admissions Bulletin.

Faculty of KINESIOLOGY & PHYSICAL EDUCATION

kinesiology.utoronto.ca
recruitment.kpe@utoronto.ca
@uoftkpe

Through inclusive excellence in research, teaching and practice, the Faculty of Kinesiology and Physical Education at U of T educates and graduates a diverse student body who become productive contributors and leaders in their fields. Our BKin students thrive in careers spanning the biophysical, psychological, physical, and cultural, including exercise physiology, psychology of injury and rehabilitation, ethical issues and biomechanics. Students benefit from hands-on learning, community engagement, research opportunities and learning abroad experiences, and can pursue a Certificate in Global Kinesiology & Physical Education or a Certificate in Physical Activity Instruction within their BKin degree. BKin students also have the opportunity to enroll in a combined Master of Teaching (MT) degree program at the Ontario Institute for Studies in Education (OISE). Learn more: uoft.me/BKin

KINections
KINections is all about helping students connect with each other and get involved beyond the classroom. An initiative of the Registrar’s Office, KINections presents curated virtual and on-campus activities that support wellness and connection, at KPE and with the local and global community. Learn more: kinections.utoronto.ca

I love the size of our faculty because with it being so small it lets you become part of a great community (or KINmunity to be cheesy), and it feels great to feel part of something like this. You get to know most of the people in your year and many of the other years as well and it makes for an amazing environment, especially when you get to places like the Benson student lounge where you see all four years hanging out together and just helping each other out.

—Ruqayyah, fourth-year BKin student

I instantly felt that this is the right fit for me. A warm, friendly and encouraging community is what I felt and have loved ever since. I chose a double major in Media Studies and Human Biology because it gives me the balance and different perspectives I need to get the full picture.

— Annie, Media Studies and Human Biology; originally from Aleppo, Syria

Our mission at U of T Scarborough is to cultivate the potential in each student. Overlooking lush parklands on the eastern shoreline of Canada’s most cosmopolitan city, U of T Scarborough’s closely knit residence communities are just steps from gleaming, sustainably built facilities and state-of-the-art labs. Toronto’s most diverse neighbourhood—“the dining capital of the world,” as American economist Tyler Cowen calls it—Scarborough is the perfect home base for crafting a business proposal, policy paper, or novel, while sealing the deal over Hakka noodles, banh mi, and bubble tea.

Residence options at U of T Scarborough include townhouses, apartment-style units, and furnished single and double rooms conveniently located minutes away from transit, grocery stores, and malls, as well as scenic creeks and valleys. Under the guidance of a dedicated staff team, the residence life experience is driven by students, for students, through a Scarborough Campus Residence Council whose members see to it that every resident feels connected, inspired, empowered, and at home.

Students walk to class outside the Social Sciences Building

Freedom of Xpression, U of T Scarborough’s annual performing arts showcase, is organized entirely by students
Congratulations!

Keep your grades up—and make sure you satisfy any conditions listed in your offer of admission.

Join the University of Toronto and become part of a vibrant community. Admission is competitive, so it’s best to apply early. Then, add @utoronto.ca to your safe senders list, and keep a close eye on your inbox. About a week or two after you submit your application, we’ll send you an acknowledgement email with further instructions. For complete details and deadlines, check out our Undergraduate Admissions Bulletin, or future.utoronto.ca/apply.

4. IF YOU GET AN OFFER

JUN 1

OUAC 101 applicants must accept their offers by June 1.

OUAC 105 applicants should check their offer of admission in JOIN for the deadline by which they must accept their offer, and any further steps to take to secure their spot.

WHAT ARE SUPPLEMENTAL APPLICATIONS?

Supplemental Applications help us get to know you better. They’re a chance for you to showcase your unique experiences, strengths, and interests. We’re looking for engaged students of any background who will bring leadership, passion, and diverse perspectives.

Start by choosing your Ontario Universities’ Application Centre (OUAC) application type.

OUAC 101: If you are a current full-time Ontario high school student, your school will issue a PIN to you. This will give you access to the “101” online application. Your school will then submit your marks through OUAC.

OUAC 105: If you are not a full-time Ontario high school student, apply using the “105” application.

Activate your JOIN portal and follow the instructions. Shortly after receiving your OUAC application, we will send you an acknowledgement email with a set of credentials that you can use to activate and access your JOIN portal at join.utoronto.ca

Once you get the credentials we send you, sign into JOIN and complete the rest of your application. Engineering applicants will be redirected to a separate portal after signing into JOIN, called the Engineering Online Student Portal. Submit any required documents by the deadlines listed in your portal.

You can always monitor the status of your application by signing into the JOIN portal. You’ll also be able to see a running list of documents that you’ve submitted and that we still need from you.

Congratulations! Keep your grades up—and make sure you satisfy any conditions listed in your offer of admission.

Our newly admitted students are eligible for 5,700+ entrance awards, including about 210 scholarships valued at $10,000 each through the President’s Scholars of Excellence Program—just one of thousands of awards for which incoming students are automatically considered. Think you might be a contender? Check what’s available at awardexplorer.utoronto.ca. Don’t forget: some awards require a nomination from your school.

**FINANCIAL AID**

- **$249M** in financial aid and awards disbursed each year
- **$89M** of funds for enrolled students have a need-based component
- **$137M** available annually in merit-based awards

Our many entrance awards include the National Scholarships (future.utoronto.ca/national-scholarship) for outstanding Canadian students and the Lester B. Pearson International Scholarships (pearson.utoronto.ca) for exceptional international students, including those completing high school diplomas in Canada. Both cover tuition fees, incidentals, and living costs for four years. National Scholarship candidates must apply by October 20th of the year before they plan to start their first year of study. Pearson Scholarship candidates must be nominated by their schools by November 30th of the year before they plan to start their first year.

To learn more about financial aid programs, fees, awards, and budgeting tools, visit future.utoronto.ca/finances.

Use our handy planning estimator: planningcalc.utoronto.ca
I’d like to take a summer school course before starting grade 12. Will this put me at a disadvantage when I apply?

The University of Toronto does not discriminate between courses taken in a day school and those taken in summer school, night school, or accredited online programs—all of these are considered equivalent so long as they are taken through a school that is formally approved by your province’s Ministry of Education. Any courses required for admission or graduation must be completed by June of your grade 12 year. Students applying to the Faculty of Applied Science & Engineering may be asked to provide reasoning for taking a course outside of their normal day school if the course is available in their day school.

I am a Canadian citizen who is completing high school in another country. Which tuition rates am I eligible for and should I plan for?

Canadian citizens are eligible for domestic tuition rates regardless of where they are residing at the time they apply. Do keep in mind, however, that admission consideration is always based on the local system (secondary school curriculum) that the applicant is completing. For details on admission requirements, including common international curriculums, visit: future.utoronto.ca/requirements

RESOURCES

Across U of T’s first-entry landscape, 5,700+ admission scholarships totaling almost $36 million are awarded each year, the majority of which are merit-based and awarded automatically—with no need for a separate application. Most awards can be combined with each other, and with financial aid.

The Ontario Student Assistance Program (OSAP) is provincially funded, comprises a mix of grants and loans, and assumes that a student’s parents and guardians (or spouse, if applicable) will financially contribute to the cost of the degree—so, their income will be taken into account when you apply for OSAP. If your OSAP application is accepted, you’ll also become eligible for other potential funding sources, like nonrepayable grants through UTAPS.

- For more on eligibility, and a quick estimate of what OSAP can offer you, visit ontario.ca/osap.
- If you’re from another Canadian province or territory, or a First Nations community, you can apply for financial aid through your provincial government or your Band.

The University of Toronto Financial Aid (UTAPS) program fills the gap for full-time students who are already receiving the maximum available government financial aid, but whose funding just doesn’t cover the complete cost of tuition fees, textbooks, living expenses, and other eligible educational expenses. To qualify for assistance through UTAPS, you must:

1. be a Canadian citizen, permanent resident, or protected person;
2. be registered in a full-time course load, by OSAP’s definitions, in an eligible U of T program, during the Fall or Winter semesters; and
3. already be receiving government student aid from any Canadian province or First Nations band, and still have an unmet financial need.

Learn more: uoft.me/UTAPSfunding

- OSAP recipients are automatically assessed for UTAPS. There’s no need to submit a separate application.
- Most recently, almost $29 million in UTAPS grants were disbursed to 12,000 students.

The National Scholarship has been the ultimate opportunity as it has opened countless doors for me.

This award sent a ripple effect of hope and happiness through my entire family, and that is why the National Scholarship is so special. Knowing the impact that this award had on me and my family, I approach every day at U of T as a chance to make a lasting difference within my field of study.

— A recipient of our 2018 National Scholarship, Jamar completed a B.Com. at the Faculty of Arts & Science (Rotman Commerce), specializing in Finance & Economics.

FREQUENTLY ASKED QUESTIONS

Are applicants required to submit personal essays, reference letters, or portfolios?
If your program requires supplemental materials, this will be noted in your JOIN portal at join.utoronto.ca (or in your Engineering Applicant Portal). While some programs require supplemental applications or profiles—see p. 51—most of our programs do not.

Please note that essays and letters of reference will not be considered unless we specifically request them. Should supplemental materials be required for one of your target programs, you’ll be notified after you’ve submitted your application.

What are your admission requirements?
- For minimum requirements from all secondary school systems, please visit uoft.me/reqs and browse to your country of study. For a searchable index of our 700+ first-entry programs and their specific prerequisites, visit future.utoronto.ca/undergraduate-programs
- For complete details on Engineering requirements, visit discover.engineering.utoronto.ca
- Are you completing the International Baccalaureate curriculum? Visit uoft.me/IBdiploma
- For full details on our English language requirements, see uoft.me/elr. Academically qualified students who don’t meet these requirements can explore one of our English language transition programs: uoft.me/eltp

Can international students live in residence?
On all three of our campuses, residence is guaranteed for new full-time students entering their first year of a postsecondary program for the first time, provided that they indicate their interest in residence by completing the First Year StarRez application by March 31, and receive and accept an offer of admission by June 1.

Students must respond to all deadlines and meet all deposit requirements to maintain their eligibility. Learn more at residence.utoronto.ca

Are there scholarships and financial aid programs for international students?
If you’re a national applicant, check with your country of study’s Ministry of Education and student financial aid programs to see if you qualify for assistance. All applicants to the University of Toronto, including international applicants, are automatically considered for merit-based entrance scholarships. Learn more at future.utoronto.ca/awards
If you’re applying to an Engineering program, check discover.engineering.utoronto.ca/finances

From my first day on campus to now, U of T has always felt like home. Even with 85,000+ students between the three campuses, the sense of community within the colleges and faculties is astounding.

I was not expecting to have such a large support system and so many resources to help me make the adjustment to university life. From the Kinesiology professors, to learning strategists and the in-house academic advisor, U of T offers a great community and learning space that allows students to grow.

—Sephora, student leader and athlete, Faculty of Kinesiology & Education

ADMISSIONS CHECKLIST

Accept your offer—and keep your grades up. Find instructions on how to accept your offer of admission on the JOIN portal.

Pay any required admission deposit that may be specified in your offer of admission. For instructions on how to pay your deposit, go to your JOIN portal.

Maintain your residence guarantee by completing your first-year residence application on StarRez before March 31. Your residence office will contact you with your residence placement and deposit payment instructions.

Check your email regularly during the summer. Your Registrar and residence will send you essential next steps by email. Starting in July, you’ll also be prompted to log into ACORN for your course enrolment start time. At that point, you can begin enrolling in courses. Note that first-year Engineering students do not choose courses and will be provided, instead, with a readymade schedule.

Your first tuition fee installment will be due in August. Each student will receive an invoice during the summer, tailored to their program. If you’ll be living in residence, check your email for updates from your Dean of Residence. And learn all about orientation week, sometimes known as Frosh Week, at hello.utoronto.ca
