One Idea Supplementary Application

We are interested in how a student will pursue their intellectual interests and apply their personal experience, background, and future goals within our programs. This is the opportunity for us to hear a students' voice, and to help us envision what they will bring to the Daniels Faculty.

All the information for the One Idea and how to apply is available right now on our website and, once a student has applied, they will also see the instructions on their JOINid Portal at join.utoronto.ca.

Section One (Required: Architectural Studies and Visual Studies Applicants)
A short essay (250-650 words) on one of four questions.

Section Two (Required: Visual Studies Applicants; Optional: Architectural Studies Applicants)
This is your opportunity to share some images of your own creative work in a limited capacity. Think critically about the images that best represent who you are and who you want to be as an artist.

Daniels One Idea Application

Welcome!

Read the One Idea essay response questions below carefully. Choose one of the four questions to answer. Prepare a written response (between 250 and 650 words) and insert in to the text box below.

We are interested in how you will pursue your intellectual interests and apply your personal experience, background, and future goals within our programs. This is the opportunity for us to hear your voice, and to help us envision what you will bring to the Daniels Faculty. In fact we are not looking for one idea, but many.

Select **one** of the questions below:

- ☐ Describe a moment when you challenged a belief or idea.
- ☐ Describe a problem that you solved; intellectual, ethical, or otherwise important to you.
- ☐ Tell us about a time when you learned from failure.
- ☐ Tell us how you express your creative side (through problem solving, innovative thinking, artistically, etc.).

650 words remaining

Please note: It is important to review your submission carefully for spelling and formatting errors. This system does not provide a spell check function and formatting may be altered if you paste from a word document
